

EARTH DAY FUN SHEET

We love our planet - and we think it's important to take care of it. There are some easy ways we can all help, like saving electricity by turning off the lights when you leave the room, or saving water by turning off the faucet when you brush your teeth.

Another great way to take care of the planet is to put trash where it belongs — in the bin!
Can you help Beelinda Bee put her trash in the bin by getting through this maze?
