

# Camp Verde Zoning Workshop: Livestock Update

## **Project Background**

Camp Verde's Planning and Zoning Ordinance outlines what is and isn't allowed in our town - it has shaped Camp Verde as we know it. To support our Town's long-term vision as our community grows and changes, we started the process of rewriting our zoning ordinance, specifically regarding the number of livestock permitted in the Town.

While the Planning and Zoning Commission and Town Council are considering multiple updates to the Town's Zoning Ordinance, there was a strong desire to give specific focus to Section 305 of the Ordinance, related to the keeping of livestock.

Phase I established a Work Group comprised of Camp Verde community members. The Work Group represented diverse perspectives, leading to dynamic discussions and innovative proposals to update the ordinance.

We are now in Phase II: Preliminary Outreach, where the Work Group and Town staff will partner to host a public Open House/Workshop and distribute a survey to seek feedback regarding the proposed changes.

Please note: if you do not have a Google/Gmail account, or do not wish to log in to your Google/Gmail account for this survey, you are still able to complete it. However, you will not be able to save your progress, so be sure to complete your survey in one sitting. Thank you!

## **Resident Profile**

We would like to understand who is participating in this important conversation! Your responses will be kept anonymous, but answering the first two questions will help our team better understand who is most interested in Camp Verde's livestock ordinances.

Please provide us with your zip code in the text field below. \*

86322

With regard to your personal experience relating to livestock, please mark all that apply: \*

- Current livestock owner
- Past livestock owner
- Neighbor of a current livestock owner
- Have never owned livestock
- Live in a neighborhood where livestock ownership is common
- Have experienced nuisances relating to livestock in Camp Verde
- Other: .....

### Land Uses

While our Work Group has discussed numerous issues, we want to be sure that the proposed zoning ordinance incorporates the public's concerns. Please provide input on the following items:

Section 305 of the current ordinance allots 24 animal points for a minimum lot size of ½ acre to 1 acre. Each additional ¼ acre is allotted an additional 6 points. The Work Group's current recommendation is to retain this point count structure. Please mark one of the following: \*

- Point count should remain as recommended by the Work Group
- Point count should be decreased
- Point count should be increased by 50%
- Point count should be increased by 100%
- Point count should be increased by 200%
- There should be no restrictions on the number of livestock allowed

The Work Group is exploring some modifications to the animal point counts. The following is a list of scenarios being considered. Please mark all that you feel should be explored. \*

- Annual, renewable permits where a property owner who demonstrates excellence in compliance with nuisance management and livestock maintenance, can increase the number of livestock permitted on their property.
- An annual registry that allows for temporary (up to 30 days per year) increases in the number of livestock on a parcel of land.
- Increases in the number of livestock on a parcel of land between the hours of 6:00 am to 10:00 pm to provide opportunities for care, training, recreational activities, or other similar short-term activities.
- None
- Other (see next question to elaborate)

If you indicated "Other" in the question above, please explain. If not, feel free to write "N/A". \*

N/A

Please check all livestock nuisances you're concerned about. \*

- Noises
- Odors
- Lighting
- Animal health
- Runoff of animal waste
- Manure management
- Proximity of livestock pens to neighboring parcel boundaries
- Flies, vermin, insects, and other pests
- None; I am not concerned with nuisances related to livestock
- Other: .....

Please rank your top three nuisance concerns, with one being your greatest concern. If you responded "None" to the previous question, please respond "N/A" to this question. \*

No concerns .....

### Final Comments & Future Outreach

We understand that there may still be some lingering questions or feedback that the survey did not cover but are still important for the Work Group and Town of Camp Verde to know.

If you would like to be contacted about future discussions regarding the zoning ordinance update, please contact the Camp Verde Community Development office at (928) 554-0050 or send an e-mail to [animalordinance@campverde.az.gov](mailto:animalordinance@campverde.az.gov). More information will be posted at this link:

<https://www.campverde.az.gov/departments/community-development/planning-zoning>.

Thank you for participating in our survey! We are looking forward to learning more from our residents to provide the best guidance for the keeping of livestock in Camp Verde.

Please list any remaining questions or feedback that you would like the team to know.

We should not be limited.

Thank you for participating in our survey! We are looking forward to learning more from our residents to provide the best guidance for the keeping of livestock in Camp Verde.

Please list any remaining questions or feedback that you would like the team to know.

Please explain how with the current point system as it is, one can have 24pts/2 horses on HALF an acre to ONE acre. BUT one can't have 4 horses on one acre?!?!? But 2 horses can reside on half an acre?!?!?

Also, please explain... How have larger property elotes for more horses BUT horses are still kept in a barn on 1/4-1/2 an acre REGARDLESS the size of the property. One acre or 3 acres,a 6 stall barn is still on a small portion of one's property. All horses reside in this barn regardless of the size of the property!

There should be no point system!

- Lighting
- Animal health
- Runoff of animal waste
- Manure management
- Proximity of livestock pens to neighboring parcel boundaries
- Flies, vermin, insects, and other pests
- None; I am not concerned with nuisances related to livestock
- Other: .....

Please rank your top three nuisance concerns, with one being your greatest concern. If you responded "None" to the previous question, please respond "N/A" to this question. \*

Manure, fly an pests, animal health .....

### Final Comments & Future Outreach

We understand that there may still be some lingering questions or feedback that the survey did not cover but are still important for the Work Group and Town of Camp Verde to know.

If you would like to be contacted about future discussions regarding the zoning ordinance update, please contact the Camp Verde Community Development office at (928) 554-0050 or send an e-mail to [animalordinance@campverde.az.gov](mailto:animalordinance@campverde.az.gov). More information will be posted at this link:

<https://www.campverde.az.gov/departments/community-development/planning-zoning>.

Thank you for participating in our survey! We are looking forward to learning more from our residents to provide the best guidance for the keeping of livestock in Camp Verde.

Please list any remaining questions or feedback that you would like the team to know.

No additions to animal count, Revoke grandfather policies...

# Camp Verde Zoning Workshop: Livestock Update

## **Project Background**

Camp Verde's Planning and Zoning Ordinance outlines what is and isn't allowed in our town - it has shaped Camp Verde as we know it. To support our Town's long-term vision as our community grows and changes, we started the process of rewriting our zoning ordinance, specifically regarding the number of livestock permitted in the Town.

While the Planning and Zoning Commission and Town Council are considering multiple updates to the Town's Zoning Ordinance, there was a strong desire to give specific focus to Section 305 of the Ordinance, related to the keeping of livestock.

Phase I established a Work Group comprised of Camp Verde community members. The Work Group represented diverse perspectives, leading to dynamic discussions and innovative proposals to update the ordinance.

We are now in Phase II: Preliminary Outreach, where the Work Group and Town staff will partner to host a public Open House/Workshop and distribute a survey to seek feedback regarding the proposed changes.

Please note: if you do not have a Google/Gmail account, or do not wish to log in to your Google/Gmail account for this survey, you are still able to complete it. However, you will not be able to save your progress, so be sure to complete your survey in one sitting. Thank you!

## **Resident Profile**

We would like to understand who is participating in this important conversation! Your responses will be kept anonymous, but answering the first two questions will help our team better understand who is most interested in Camp Verde's livestock ordinances.

Please provide us with your zip code in the text field below. \*

86322

With regard to your personal experience relating to livestock, please mark all that apply: \*

- Current livestock owner
- Past livestock owner
- Neighbor of a current livestock owner
- Have never owned livestock
- Live in a neighborhood where livestock ownership is common
- Have experienced nuisances relating to livestock in Camp Verde
- Other: .....

## Land Uses

While our Work Group has discussed numerous issues, we want to be sure that the proposed zoning ordinance incorporates the public's concerns. Please provide input on the following items:

Section 305 of the current ordinance allots 24 animal points for a minimum lot size of ½ acre to 1 acre. Each additional ¼ acre is allotted an additional 6 points. The Work Group's current recommendation is to retain this point count structure. Please mark one of the following: \*

- Point count should remain as recommended by the Work Group
- Point count should be decreased
- Point count should be increased by 50%
- Point count should be increased by 100%
- Point count should be increased by 200%
- There should be no restrictions on the number of livestock allowed

The Work Group is exploring some modifications to the animal point counts. The following is a list of scenarios being considered. Please mark all that you feel should be explored. \*

- Annual, renewable permits where a property owner who demonstrates excellence in compliance with nuisance management and livestock maintenance, can increase the number of livestock permitted on their property.
- An annual registry that allows for temporary (up to 30 days per year) increases in the number of livestock on a parcel of land.
- Increases in the number of livestock on a parcel of land between the hours of 6:00 am to 10:00 pm to provide opportunities for care, training, recreational activities, or other similar short-term activities.
- None
- Other (see next question to elaborate)

If you indicated "Other" in the question above, please explain. If not, feel free to write "N/A". \*

NA

Please check all livestock nuisances you're concerned about. \*

- Noises
- Odors
- Lighting
- Animal health
- Runoff of animal waste
- Manure management
- Proximity of livestock pens to neighboring parcel boundaries
- Flies, vermin, insects, and other pests
- None; I am not concerned with nuisances related to livestock

There should be no points and I do not believe a permit system is not fair to people, especially if you're going to charge a fee. The system needs to be about each individual, if there is a problem then deal with that instead of making everyone limited.

There shouldn't be a limit on how many animals you have on your property... It doesn't matter how many animals you have what matters is how you care for your animals.

- Lighting
- Animal health
- Runoff of animal waste
- Manure management
- Proximity of livestock pens to neighboring parcel boundaries
- Flies, vermin, insects, and other pests
- None; I am not concerned with nuisances related to livestock
- Other:

The livestock owners that i know are considerate about their neighbors and concerned about the wellbeing of their animals. It really is all about the nuisances, I dont care how many animals, or what kind, as long as they take care of the animals and keep the property clean and maintained, I live in a rural community on purpose. No matter where you live there are nuisances.

Please rank your top three nuisance concerns, with one being your greatest concern. If you responded "None" to the previous question, please respond "N/A" to this question. \*

1 animal health, 2 manure mgmnt, 3 flies

Please list any remaining questions or feedback that you would like the team to know.

I am generally opposed to permitting. Spell it out in the ordinance. If permitting is used it again must be clearly spelled out so that new city employee enforcers can not reinterpret the rules. I am opposed to guest horse registration, that is ridiculous. Again spell out the rules in the ordinance. I also believe chronic complainers should be fined or have to pay fees.

With regard to your personal experience relating to livestock, please mark all that apply: \*

- Current livestock owner
- Past livestock owner
- Neighbor of a current livestock owner
- Have never owned livestock
- Live in a neighborhood where livestock ownership is common
- Have experienced nuisances relating to livestock in Camp Verde
- Other: .....

## Land Uses

While our Work Group has discussed numerous issues, we want to be sure that the proposed zoning ordinance incorporates the public's concerns. Please provide input on the following items:

Section 305 of the current ordinance allots 24 animal points for a minimum lot size of ½ acre to 1 acre. Each additional ¼ acre is allotted an additional 6 points. The Work Group's current recommendation is to retain this point count structure. Please mark one of the following: \*

- Point count should remain as recommended by the Work Group
- Point count should be decreased
- Point count should be increased by 50%
- Point count should be increased by 100%
- Point count should be increased by 200%
- There should be no restrictions on the number of livestock allowed

The Work Group is exploring some modifications to the animal point counts. The following is a list of scenarios being considered. Please mark all that you feel should be explored. \*

- Annual, renewable permits where a property owner who demonstrates excellence in compliance with nuisance management and livestock maintenance, can increase the number of livestock permitted on their property.
- An annual registry that allows for temporary (up to 30 days per year) increases in the number of livestock on a parcel of land.
- Increases in the number of livestock on a parcel of land between the hours of 6:00 am to 10:00 pm to provide opportunities for care, training, recreational activities, or other similar short-term activities.
- None
- Other (see next question to elaborate)

If you indicated "Other" in the question above, please explain. If not, feel free to write "N/A". \*

N/a

---

Please check all livestock nuisances you're concerned about. \*

- Noises
- Odors
- Lighting
- Animal health
- Runoff of animal waste
- Manure management
- Proximity of livestock pens to neighboring parcel boundaries
- Flies, vermin, insects, and other pests
- None; I am not concerned with nuisances related to livestock
- Other: .....

Please rank your top three nuisance concerns, with one being your greatest concern. If you responded "None" to the previous question, please respond "N/A" to this question. \*

N/A .....

### Final Comments & Future Outreach

We understand that there may still be some lingering questions or feedback that the survey did not cover but are still important for the Work Group and Town of Camp Verde to know.

If you would like to be contacted about future discussions regarding the zoning ordinance update, please contact the Camp Verde Community Development office at (928) 554-0050 or send an e-mail to [animalordinance@campverde.az.gov](mailto:animalordinance@campverde.az.gov). More information will be posted at this link:

<https://www.campverde.az.gov/departments/community-development/planning-zoning>.

Thank you for participating in our survey! We are looking forward to learning more from our residents to provide the best guidance for the keeping of livestock in Camp Verde.

Please list any remaining questions or feedback that you would like the team to know.

None

# Camp Verde Zoning Workshop: Livestock Update

## **Project Background**

Camp Verde's Planning and Zoning Ordinance outlines what is and isn't allowed in our town - it has shaped Camp Verde as we know it. To support our Town's long-term vision as our community grows and changes, we started the process of rewriting our zoning ordinance, specifically regarding the number of livestock permitted in the Town.

While the Planning and Zoning Commission and Town Council are considering multiple updates to the Town's Zoning Ordinance, there was a strong desire to give specific focus to Section 305 of the Ordinance, related to the keeping of livestock.

Phase I established a Work Group comprised of Camp Verde community members. The Work Group represented diverse perspectives, leading to dynamic discussions and innovative proposals to update the ordinance.

We are now in Phase II: Preliminary Outreach, where the Work Group and Town staff will partner to host a public Open House/Workshop and distribute a survey to seek feedback regarding the proposed changes.

Please note: if you do not have a Google/Gmail account, or do not wish to log in to your Google/Gmail account for this survey, you are still able to complete it. However, you will not be able to save your progress, so be sure to complete your survey in one sitting. Thank you!

## **Resident Profile**

We would like to understand who is participating in this important conversation! Your responses will be kept anonymous, but answering the first two questions will help our team better understand who is most interested in Camp Verde's livestock ordinances.

Please provide us with your zip code in the text field below. \*

Thank you for participating in our survey! We are looking forward to learning more from our residents to provide the best guidance for the keeping of livestock in Camp Verde.

Please list any remaining questions or feedback that you would like the team to know.

This whole debacle about animal count seems like targeted issues between certain town members with goals to enforce control and political leanings on a longstanding standard of not only this town but the entire country. Livestock ownership is a right not only for food, hobby, entertainment, but also income source. To impose more government control regarding this is targeted toward a class of people or to increase monetary income for the city. There are already in place animal welfare laws and other statutes for sanitary conditions. Any and all issues brought up already pertaining to nuisances exist in a natural setting from wild animals and insects. Unless real animal welfare is a issue which likely 80%-90% of the public is completely ignorant to animal condition or situation really is should be something discussed between neighbors or related parties. Only when the safety of the public is in danger should authorities be involved. The issue should be tabled indefinitely as this are problems solely between private parties. If properly brought to the attention of the populace would incur swift beaurocratic change along with removal of elected members via vote.

### Final Comments & Future Outreach

We understand that there may still be some lingering questions or feedback that the survey did not cover but are still important for the Work Group and Town of Camp Verde to know.

If you would like to be contacted about future discussions regarding the zoning ordinance update, please contact the Camp Verde Community Development office at (928) 554-0050 or send an e-mail to [animalordinance@campverde.az.gov](mailto:animalordinance@campverde.az.gov). More information will be posted at this link:

<https://www.campverde.az.gov/departments/community-development/planning-zoning>.

Thank you for participating in our survey! We are looking forward to learning more from our residents to provide the best guidance for the keeping of livestock in Camp Verde.

Please list any remaining questions or feedback that you would like the team to know.

# Camp Verde Zoning Workshop: Livestock Update

## **Project Background**

Camp Verde's Planning and Zoning Ordinance outlines what is and isn't allowed in our town - it has shaped Camp Verde as we know it. To support our Town's long-term vision as our community grows and changes, we started the process of rewriting our zoning ordinance, specifically regarding the number of livestock permitted in the Town.

While the Planning and Zoning Commission and Town Council are considering multiple updates to the Town's Zoning Ordinance, there was a strong desire to give specific focus to Section 305 of the Ordinance, related to the keeping of livestock.

Phase I established a Work Group comprised of Camp Verde community members. The Work Group represented diverse perspectives, leading to dynamic discussions and innovative proposals to update the ordinance.

We are now in Phase II: Preliminary Outreach, where the Work Group and Town staff will partner to host a public Open House/Workshop and distribute a survey to seek feedback regarding the proposed changes.

Please note: if you do not have a Google/Gmail account, or do not wish to log in to your Google/Gmail account for this survey, you are still able to complete it. However, you will not be able to save your progress, so be sure to complete your survey in one sitting. Thank you!

## **Resident Profile**

We would like to understand who is participating in this important conversation! Your responses will be kept anonymous, but answering the first two questions will help our team better understand who is most interested in Camp Verde's livestock ordinances.

Please provide us with your zip code in the text field below. \*

86322

With regard to your personal experience relating to livestock, please mark all that apply: \*

- Current livestock owner
- Past livestock owner
- Neighbor of a current livestock owner
- Have never owned livestock
- Live in a neighborhood where livestock ownership is common
- Have experienced nuisances relating to livestock in Camp Verde
- Other: .....

## Land Uses

While our Work Group has discussed numerous issues, we want to be sure that the proposed zoning ordinance incorporates the public's concerns. Please provide input on the following items:

Section 305 of the current ordinance allots 24 animal points for a minimum lot size of ½ acre to \*  
1 acre. Each additional ¼ acre is allotted an additional 6 points. The Work Group's current recommendation is to retain this point count structure. Please mark one of the following:

- Point count should remain as recommended by the Work Group
- Point count should be decreased
- Point count should be increased by 50%
- Point count should be increased by 100%
- Point count should be increased by 200%
- There should be no restrictions on the number of livestock allowed

The Work Group is exploring some modifications to the animal point counts. The following is a list of scenarios being considered. Please mark all that you feel should be explored. \*

- Annual, renewable permits where a property owner who demonstrates excellence in compliance with nuisance management and livestock maintenance, can increase the number of livestock permitted on their property.
- An annual registry that allows for temporary (up to 30 days per year) increases in the number of livestock on a parcel of land.
- Increases in the number of livestock on a parcel of land between the hours of 6:00 am to 10:00 pm to provide opportunities for care, training, recreational activities, or other similar short-term activities.
- None
- Other (see next question to elaborate)

If you indicated "Other" in the question above, please explain. If not, feel free to write "N/A". \*

You should not have to control non resident or guest animals. They are just that. We don't control how many additional vehicles or children or families. What animals I have should not matter.

---

Please check all livestock nuisances you're concerned about. \*

- Noises
- Odors
- Lighting
- Animal health
- Runoff of animal waste
- Manure management
- Proximity of livestock pens to neighboring parcel boundaries
- Flies, vermin, insects, and other pests
- None; I am not concerned with nuisances related to livestock
- Other: .....

Please rank your top three nuisance concerns, with one being your greatest concern. If you responded "None" to the previous question, please respond "N/A" to this question. \*

Manure management, flies, odors

The Work Group is exploring some modifications to the animal point counts. The following is a list of scenarios being considered. Please mark all that you feel should be explored. \*

- Annual, renewable permits where a property owner who demonstrates excellence in compliance with nuisance management and livestock maintenance, can increase the number of livestock permitted on their property.
- An annual registry that allows for temporary (up to 30 days per year) increases in the number of livestock on a parcel of land.
- Increases in the number of livestock on a parcel of land between the hours of 6:00 am to 10:00 pm to provide opportunities for care, training, recreational activities, or other similar short-term activities.
- None
- Other (see next question to elaborate)

If you indicated "Other" in the question above, please explain. If not, feel free to write "N/A". \*

N/A

---

Please check all livestock nuisances you're concerned about. \*

- Noises
- Odors
- Lighting
- Animal health
- Runoff of animal waste
- Manure management
- Proximity of livestock pens to neighboring parcel boundaries
- Flies, vermin, insects, and other pests
- None; I am not concerned with nuisances related to livestock
- Other: .....

Please rank your top three nuisance concerns, with one being your greatest concern. If you responded "None" to the previous question, please respond "N/A" to this question. \*

Na .....

### Final Comments & Future Outreach

We understand that there may still be some lingering questions or feedback that the survey did not cover but are still important for the Work Group and Town of Camp Verde to know.

If you would like to be contacted about future discussions regarding the zoning ordinance update, please contact the Camp Verde Community Development office at (928) 554-0050 or send an e-mail to [animalordinance@campverde.az.gov](mailto:animalordinance@campverde.az.gov). More information will be posted at this link:

<https://www.campverde.az.gov/departments/community-development/planning-zoning>.

Thank you for participating in our survey! We are looking forward to learning more from our residents to provide the best guidance for the keeping of livestock in Camp Verde.

Please list any remaining questions or feedback that you would like the team to know.

# Camp Verde Zoning Workshop: Livestock Update

## **Project Background**

Camp Verde's Planning and Zoning Ordinance outlines what is and isn't allowed in our town - it has shaped Camp Verde as we know it. To support our Town's long-term vision as our community grows and changes, we started the process of rewriting our zoning ordinance, specifically regarding the number of livestock permitted in the Town.

While the Planning and Zoning Commission and Town Council are considering multiple updates to the Town's Zoning Ordinance, there was a strong desire to give specific focus to Section 305 of the Ordinance, related to the keeping of livestock.

Phase I established a Work Group comprised of Camp Verde community members. The Work Group represented diverse perspectives, leading to dynamic discussions and innovative proposals to update the ordinance.

We are now in Phase II: Preliminary Outreach, where the Work Group and Town staff will partner to host a public Open House/Workshop and distribute a survey to seek feedback regarding the proposed changes.

Please note: if you do not have a Google/Gmail account, or do not wish to log in to your Google/Gmail account for this survey, you are still able to complete it. However, you will not be able to save your progress, so be sure to complete your survey in one sitting. Thank you!

## **Resident Profile**

We would like to understand who is participating in this important conversation! Your responses will be kept anonymous, but answering the first two questions will help our team better understand who is most interested in Camp Verde's livestock ordinances.

Please provide us with your zip code in the text field below. \*

86322

With regard to your personal experience relating to livestock, please mark all that apply: \*

- Current livestock owner
- Past livestock owner
- Neighbor of a current livestock owner
- Have never owned livestock
- Live in a neighborhood where livestock ownership is common
- Have experienced nuisances relating to livestock in Camp Verde
- Other: .....

## Land Uses

While our Work Group has discussed numerous issues, we want to be sure that the proposed zoning ordinance incorporates the public's concerns. Please provide input on the following items:

Section 305 of the current ordinance allots 24 animal points for a minimum lot size of ½ acre to \*  
1 acre. Each additional ¼ acre is allotted an additional 6 points. The Work Group's current recommendation is to retain this point count structure. Please mark one of the following:

- Point count should remain as recommended by the Work Group
- Point count should be decreased
- Point count should be increased by 50%
- Point count should be increased by 100%
- Point count should be increased by 200%
- There should be no restrictions on the number of livestock allowed

The Work Group is exploring some modifications to the animal point counts. The following is a list of scenarios being considered. Please mark all that you feel should be explored. \*

- Annual, renewable permits where a property owner who demonstrates excellence in compliance with nuisance management and livestock maintenance, can increase the number of livestock permitted on their property.
- An annual registry that allows for temporary (up to 30 days per year) increases in the number of livestock on a parcel of land.

Noted previously. Please consider doing away with anonymous complaints. They foster false complaints. Someone who feels their complaint is valid should be accountable for it, and that way we can keep track of serial complainers and lessen draw on code enforcement. Thank you!!!

If you indicated "Other" in the question above, please explain. If not, feel free to write "N/A". \*

Apply a nuisance standard and simplify the entire process. There should be no restrictions on animal counts if nuisance standards are applied. Remove enforcement from Planning and Development Department.

---

Please check all livestock nuisances you're concerned about. \*

- Noises
- Odors
- Lighting
- Animal health
- Runoff of animal waste
- Manure management
- Proximity of livestock pens to neighboring parcel boundaries
- Flies, vermin, insects, and other pests
- None; I am not concerned with nuisances related to livestock
- Other: Apply a nuisance standard

Please rank your top three nuisance concerns, with one being your greatest concern. If you responded "None" to the previous question, please respond "N/A" to this question. \*

Our town has witnessed arbitrary and capricious enforcement of code provisions. A "nuisance" standard would remedy this.

To support our Town's long-term vision as our community grows and changes, we started the process of rewriting our zoning ordinance, specifically regarding the number of livestock permitted in the Town.

While the Planning and Zoning Commission and Town Council are considering multiple updates to the Town's Zoning Ordinance, there was a strong desire to give specific focus to Section 305 of the Ordinance, related to the keeping of livestock.

Phase I established a Work Group comprised of Camp Verde community members. The Work Group represented diverse perspectives, leading to dynamic discussions and innovative proposals to update the ordinance.

We are now in Phase II: Preliminary Outreach, where the Work Group and Town staff will partner to host a public Open House/Workshop and distribute a survey to seek feedback regarding the proposed changes.

Please note: if you do not have a Google/Gmail account, or do not wish to log in to your Google/Gmail account for this survey, you are still able to complete it. However, you will not be able to save your progress, so be sure to complete your survey in one sitting. Thank you!

## **Resident Profile**

We would like to understand who is participating in this important conversation! Your responses will be kept anonymous, but answering the first two questions will help our team better understand who is most interested in Camp Verde's livestock ordinances.

Please provide us with your zip code in the text field below. \*

86322

With regard to your personal experience relating to livestock, please mark all that apply: \*

- Current livestock owner
- Past livestock owner
- Neighbor of a current livestock owner
- Have never owned livestock
- Live in a neighborhood where livestock ownership is common
- Have experienced nuisances relating to livestock in Camp Verde
- Other: .....

### Land Uses

While our Work Group has discussed numerous issues, we want to be sure that the proposed zoning ordinance incorporates the public's concerns. Please provide input on the following items:

Section 305 of the current ordinance allots 24 animal points for a minimum lot size of ½ acre to \*  
1 acre. Each additional ¼ acre is allotted an additional 6 points. The Work Group's current recommendation is to retain this point count structure. Please mark one of the following:

- Point count should remain as recommended by the Work Group
- Point count should be decreased
- Point count should be increased by 50%
- Point count should be increased by 100%
- Point count should be increased by 200%
- There should be no restrictions on the number of livestock allowed

The Work Group is exploring some modifications to the animal point counts. The following is a list of scenarios being considered. Please mark all that you feel should be explored. \*

- Annual, renewable permits where a property owner who demonstrates excellence in compliance with nuisance management and livestock maintenance, can increase the number of livestock permitted on their property.
- An annual registry that allows for temporary (up to 30 days per year) increases in the number of livestock on a parcel of land.
- Increases in the number of livestock on a parcel of land between the hours of 6:00 am to 10:00 pm to provide opportunities for care, training, recreational activities, or other similar short-term activities.
- None
- Other (see next question to elaborate)

If you indicated "Other" in the question above, please explain. If not, feel free to write "N/A". \*

N/A

---

Please check all livestock nuisances you're concerned about. \*

- Noises
- Odors
- Lighting
- Animal health
- Runoff of animal waste
- Manure management
- Proximity of livestock pens to neighboring parcel boundaries
- Flies, vermin, insects, and other pests
- None; I am not concerned with nuisances related to livestock
- Other: .....

Please rank your top three nuisance concerns, with one being your greatest concern. If you responded "None" to the previous question, please respond "N/A" to this question. \*

N/A .....

### Final Comments & Future Outreach

We understand that there may still be some lingering questions or feedback that the survey did not cover but are still important for the Work Group and Town of Camp Verde to know.

If you would like to be contacted about future discussions regarding the zoning ordinance update, please contact the Camp Verde Community Development office at (928) 554-0050 or send an e-mail to [animalordinance@campverde.az.gov](mailto:animalordinance@campverde.az.gov). More information will be posted at this link:

<https://www.campverde.az.gov/departments/community-development/planning-zoning>.

Thank you for participating in our survey! We are looking forward to learning more from our residents to provide the best guidance for the keeping of livestock in Camp Verde.

Please list any remaining questions or feedback that you would like the team to know.

As long as animals are healthy and being taken care of properly it should not matter how many "points" they are wort

### Final Comments & Future Outreach

We understand that there may still be some lingering questions or feedback that the survey did not cover but are still important for the Work Group and Town of Camp Verde to know.

If you would like to be contacted about future discussions regarding the zoning ordinance update, please contact the Camp Verde Community Development office at (928) 554-0050 or send an e-mail to [animalordinance@campverde.az.gov](mailto:animalordinance@campverde.az.gov). More information will be posted at this link:

<https://www.campverde.az.gov/departments/community-development/planning-zoning>.

Thank you for participating in our survey! We are looking forward to learning more from our residents to provide the best guidance for the keeping of livestock in Camp Verde.

Please list any remaining questions or feedback that you would like the team to know.

5 pigs per property is to much maybe 2-3

# Camp Verde Zoning Workshop: Livestock Update

## **Project Background**

Camp Verde's Planning and Zoning Ordinance outlines what is and isn't allowed in our town - it has shaped Camp Verde as we know it. To support our Town's long-term vision as our community grows and changes, we started the process of rewriting our zoning ordinance, specifically regarding the number of livestock permitted in the Town.

While the Planning and Zoning Commission and Town Council are considering multiple updates to the Town's Zoning Ordinance, there was a strong desire to give specific focus to Section 305 of the Ordinance, related to the keeping of livestock.

Phase I established a Work Group comprised of Camp Verde community members. The Work Group represented diverse perspectives, leading to dynamic discussions and innovative proposals to update the ordinance.

We are now in Phase II: Preliminary Outreach, where the Work Group and Town staff will partner to host a public Open House/Workshop and distribute a survey to seek feedback regarding the proposed changes.

Please note: if you do not have a Google/Gmail account, or do not wish to log in to your Google/Gmail account for this survey, you are still able to complete it. However, you will not be able to save your progress, so be sure to complete your survey in one sitting. Thank you!

## **Resident Profile**

We would like to understand who is participating in this important conversation! Your responses will be kept anonymous, but answering the first two questions will help our team better understand who is most interested in Camp Verde's livestock ordinances.

Please provide us with your zip code in the text field below. \*

86322

With regard to your personal experience relating to livestock, please mark all that apply: \*

- Current livestock owner
- Past livestock owner
- Neighbor of a current livestock owner
- Have never owned livestock
- Live in a neighborhood where livestock ownership is common
- Have experienced nuisances relating to livestock in Camp Verde
- Other: .....

## Land Uses

While our Work Group has discussed numerous issues, we want to be sure that the proposed zoning ordinance incorporates the public's concerns. Please provide input on the following items:

Section 305 of the current ordinance allots 24 animal points for a minimum lot size of ½ acre to 1 acre. Each additional ¼ acre is allotted an additional 6 points. The Work Group's current recommendation is to retain this point count structure. Please mark one of the following: \*

- Point count should remain as recommended by the Work Group
- Point count should be decreased
- Point count should be increased by 50%
- Point count should be increased by 100%
- Point count should be increased by 200%
- There should be no restrictions on the number of livestock allowed

The Work Group is exploring some modifications to the animal point counts. The following is a list of scenarios being considered. Please mark all that you feel should be explored. \*

- Annual, renewable permits where a property owner who demonstrates excellence in compliance with nuisance management and livestock maintenance, can increase the number of livestock permitted on their property.
- An annual registry that allows for temporary (up to 30 days per year) increases in the number of livestock on a parcel of land.
- Increases in the number of livestock on a parcel of land between the hours of 6:00 am to 10:00 pm to provide opportunities for care, training, recreational activities, or other similar short-term activities.
- None
- Other (see next question to elaborate)

If you indicated "Other" in the question above, please explain. If not, feel free to write "N/A". \*

Nope

---

Please check all livestock nuisances you're concerned about. \*

- Noises
- Odors
- Lighting
- Animal health
- Runoff of animal waste
- Manure management
- Proximity of livestock pens to neighboring parcel boundaries
- Flies, vermin, insects, and other pests
- None; I am not concerned with nuisances related to livestock
- Other: .....

Please rank your top three nuisance concerns, with one being your greatest concern. If you responded "None" to the previous question, please respond "N/A" to this question. \*

1 4 6 .....

Please list any remaining questions or feedback that you would like the team to know.

We live in a rural town where people should be able to raise livestock. A decrease in the numbers could negatively affect people's abilities to raise animals and feed their families or to earn a living for their families.

- There should be no restrictions on the number of livestock allowed

The Work Group is exploring some modifications to the animal point counts. The following is a list of scenarios being considered. Please mark all that you feel should be explored. \*

- Annual, renewable permits where a property owner who demonstrates excellence in compliance with nuisance management and livestock maintenance, can increase the number of livestock permitted on their property.
- An annual registry that allows for temporary (up to 30 days per year) increases in the number of livestock on a parcel of land.
- Increases in the number of livestock on a parcel of land between the hours of 6:00 am to 10:00 pm to provide opportunities for care, training, recreational activities, or other similar short-term activities.
- None
- Other (see next question to elaborate)

If you indicated "Other" in the question above, please explain. If not, feel free to write "N/A". \*

N/A

---

Please check all livestock nuisances you're concerned about. \*

- Noises
- Odors
- Lighting
- Animal health
- Runoff of animal waste
- Manure management
- Proximity of livestock pens to neighboring parcel boundaries
- Flies, vermin, insects, and other pests
- None; I am not concerned with nuisances related to livestock
- Other: .....

Please rank your top three nuisance concerns, with one being your greatest concern. If you responded "None" to the previous question, please respond "N/A" to this question. \*

Animal health, manure management, runoff of waste .....

### Final Comments & Future Outreach

We understand that there may still be some lingering questions or feedback that the survey did not cover but are still important for the Work Group and Town of Camp Verde to know.

If you would like to be contacted about future discussions regarding the zoning ordinance update, please contact the Camp Verde Community Development office at (928) 554-0050 or send an e-mail to [animalordinance@campverde.az.gov](mailto:animalordinance@campverde.az.gov). More information will be posted at this link:

<https://www.campverde.az.gov/departments/community-development/planning-zoning>.

Thank you for participating in our survey! We are looking forward to learning more from our residents to provide the best guidance for the keeping of livestock in Camp Verde.

Please list any remaining questions or feedback that you would like the team to know.

# Camp Verde Zoning Workshop: Livestock Update

## **Project Background**

Camp Verde's Planning and Zoning Ordinance outlines what is and isn't allowed in our town - it has shaped Camp Verde as we know it. To support our Town's long-term vision as our community grows and changes, we started the process of rewriting our zoning ordinance, specifically regarding the number of livestock permitted in the Town.

While the Planning and Zoning Commission and Town Council are considering multiple updates to the Town's Zoning Ordinance, there was a strong desire to give specific focus to Section 305 of the Ordinance, related to the keeping of livestock.

Phase I established a Work Group comprised of Camp Verde community members. The Work Group represented diverse perspectives, leading to dynamic discussions and innovative proposals to update the ordinance.

We are now in Phase II: Preliminary Outreach, where the Work Group and Town staff will partner to host a public Open House/Workshop and distribute a survey to seek feedback regarding the proposed changes.

Please note: if you do not have a Google/Gmail account, or do not wish to log in to your Google/Gmail account for this survey, you are still able to complete it. However, you will not be able to save your progress, so be sure to complete your survey in one sitting. Thank you!

## **Resident Profile**

We would like to understand who is participating in this important conversation! Your responses will be kept anonymous, but answering the first two questions will help our team better understand who is most interested in Camp Verde's livestock ordinances.

Please provide us with your zip code in the text field below. \*

86322

With regard to your personal experience relating to livestock, please mark all that apply: \*

- Current livestock owner
- Past livestock owner
- Neighbor of a current livestock owner
- Have never owned livestock
- Live in a neighborhood where livestock ownership is common
- Have experienced nuisances relating to livestock in Camp Verde
- Other: .....

### Land Uses

While our Work Group has discussed numerous issues, we want to be sure that the proposed zoning ordinance incorporates the public's concerns. Please provide input on the following items:

Section 305 of the current ordinance allots 24 animal points for a minimum lot size of ½ acre to \*  
1 acre. Each additional ¼ acre is allotted an additional 6 points. The Work Group's current recommendation is to retain this point count structure. Please mark one of the following:

- Point count should remain as recommended by the Work Group
- Point count should be decreased
- Point count should be increased by 50%
- Point count should be increased by 100%
- Point count should be increased by 200%
- There should be no restrictions on the number of livestock allowed

The Work Group is exploring some modifications to the animal point counts. The following is a list of scenarios being considered. Please mark all that you feel should be explored. \*

- Annual, renewable permits where a property owner who demonstrates excellence in compliance with nuisance management and livestock maintenance, can increase the number of livestock permitted on their property.

- Neighbor of a current livestock owner
- Have never owned livestock
- Live in a neighborhood where livestock ownership is common
- Have experienced nuisances relating to livestock in Camp Verde
- Other: .....

## Land Uses

While our Work Group has discussed numerous issues, we want to be sure that the proposed zoning ordinance incorporates the public's concerns. Please provide input on the following items:

Section 305 of the current ordinance allots 24 animal points for a minimum lot size of ½ acre to \*  
1 acre. Each additional ¼ acre is allotted an additional 6 points. The Work Group's current recommendation is to retain this point count structure. Please mark one of the following:

- Point count should remain as recommended by the Work Group
- Point count should be decreased
- Point count should be increased by 50%
- Point count should be increased by 100%
- Point count should be increased by 200%
- There should be no restrictions on the number of livestock allowed

The Work Group is exploring some modifications to the animal point counts. The following is a list of scenarios being considered. Please mark all that you feel should be explored. \*

- Annual, renewable permits where a property owner who demonstrates excellence in compliance with nuisance management and livestock maintenance, can increase the number of livestock permitted on their property.
- An annual registry that allows for temporary (up to 30 days per year) increases in the number of livestock on a parcel of land.
- Increases in the number of livestock on a parcel of land between the hours of 6:00 am to 10:00 pm to provide opportunities for care, training, recreational activities, or other similar short-term activities.
- None
- Other (see next question to elaborate)

If you indicated "Other" in the question above, please explain. If not, feel free to write "N/A". \*

N/

---

Please check all livestock nuisances you're concerned about. \*

- Noises
- Odors
- Lighting
- Animal health
- Runoff of animal waste
- Manure management
- Proximity of livestock pens to neighboring parcel boundaries
- Flies, vermin, insects, and other pests
- None; I am not concerned with nuisances related to livestock
- Other: .....

Please rank your top three nuisance concerns, with one being your greatest concern. If you responded "None" to the previous question, please respond "N/A" to this question. \*

Poverty, infrastructure, and economic development .....

### Final Comments & Future Outreach

We understand that there may still be some lingering questions or feedback that the survey did not cover but are still important for the Work Group and Town of Camp Verde to know.

If you would like to be contacted about future discussions regarding the zoning ordinance update, please contact the Camp Verde Community Development office at (928) 554-0050 or send an e-mail to [animalordinance@campverde.az.gov](mailto:animalordinance@campverde.az.gov). More information will be posted at this link:

<https://www.campverde.az.gov/departments/community-development/planning-zoning>.

Thank you for participating in our survey! We are looking forward to learning more from our residents to provide the best guidance for the keeping of livestock in Camp Verde.

Please list any remaining questions or feedback that you would like the team to know.

Can we address the lack of infrastructure and the dirt of economic development in some areas Campverde?

# Camp Verde Zoning Workshop: Livestock Update

## **Project Background**

Camp Verde's Planning and Zoning Ordinance outlines what is and isn't allowed in our town - it has shaped Camp Verde as we know it. To support our Town's long-term vision as our community grows and changes, we started the process of rewriting our zoning ordinance, specifically regarding the number of livestock permitted in the Town.

While the Planning and Zoning Commission and Town Council are considering multiple updates to the Town's Zoning Ordinance, there was a strong desire to give specific focus to Section 305 of the Ordinance, related to the keeping of livestock.

Phase I established a Work Group comprised of Camp Verde community members. The Work Group represented diverse perspectives, leading to dynamic discussions and innovative proposals to update the ordinance.

We are now in Phase II: Preliminary Outreach, where the Work Group and Town staff will partner to host a public Open House/Workshop and distribute a survey to seek feedback regarding the proposed changes.

Please note: if you do not have a Google/Gmail account, or do not wish to log in to your Google/Gmail account for this survey, you are still able to complete it. However, you will not be able to save your progress, so be sure to complete your survey in one sitting. Thank you!

## **Resident Profile**

We would like to understand who is participating in this important conversation! Your responses will be kept anonymous, but answering the first two questions will help our team better understand who is most interested in Camp Verde's livestock ordinances.

Please provide us with your zip code in the text field below. \*

86335

With regard to your personal experience relating to livestock, please mark all that apply: \*

- Current livestock owner
- Past livestock owner
- Neighbor of a current livestock owner
- Have never owned livestock
- Live in a neighborhood where livestock ownership is common
- Have experienced nuisances relating to livestock in Camp Verde
- Other: .....

To support our Town's long-term vision as our community grows and changes, we started the process of rewriting our zoning ordinance, specifically regarding the number of livestock permitted in the Town.

While the Planning and Zoning Commission and Town Council are considering multiple updates to the Town's Zoning Ordinance, there was a strong desire to give specific focus to Section 305 of the Ordinance, related to the keeping of livestock.

Phase I established a Work Group comprised of Camp Verde community members. The Work Group represented diverse perspectives, leading to dynamic discussions and innovative proposals to update the ordinance.

We are now in Phase II: Preliminary Outreach, where the Work Group and Town staff will partner to host a public Open House/Workshop and distribute a survey to seek feedback regarding the proposed changes.

Please note: if you do not have a Google/Gmail account, or do not wish to log in to your Google/Gmail account for this survey, you are still able to complete it. However, you will not be able to save your progress, so be sure to complete your survey in one sitting. Thank you!

## **Resident Profile**

We would like to understand who is participating in this important conversation! Your responses will be kept anonymous, but answering the first two questions will help our team better understand who is most interested in Camp Verde's livestock ordinances.

Please provide us with your zip code in the text field below. \*

86322

With regard to your personal experience relating to livestock, please mark all that apply: \*

- Current livestock owner
- Past livestock owner
- Neighbor of a current livestock owner
- Have never owned livestock
- Live in a neighborhood where livestock ownership is common
- Have experienced nuisances relating to livestock in Camp Verde
- Other: .....

## Land Uses

While our Work Group has discussed numerous issues, we want to be sure that the proposed zoning ordinance incorporates the public's concerns. Please provide input on the following items:

Section 305 of the current ordinance allots 24 animal points for a minimum lot size of ½ acre to \*  
1 acre. Each additional ¼ acre is allotted an additional 6 points. The Work Group's current recommendation is to retain this point count structure. Please mark one of the following:

- Point count should remain as recommended by the Work Group
- Point count should be decreased
- Point count should be increased by 50%
- Point count should be increased by 100%
- Point count should be increased by 200%
- There should be no restrictions on the number of livestock allowed

The Work Group is exploring some modifications to the animal point counts. The following is a list of scenarios being considered. Please mark all that you feel should be explored. \*

- Annual, renewable permits where a property owner who demonstrates excellence in compliance with nuisance management and livestock maintenance, can increase the number of livestock permitted on their property.
- An annual registry that allows for temporary (up to 30 days per year) increases in the number of livestock on a parcel of land.
- Increases in the number of livestock on a parcel of land between the hours of 6:00 am to 10:00 pm to provide opportunities for care, training, recreational activities, or other similar short-term activities.
- None
- Other (see next question to elaborate)

If you indicated "Other" in the question above, please explain. If not, feel free to write "N/A". \*

N/A

---

Please check all livestock nuisances you're concerned about. \*

- Noises
- Odors
- Lighting
- Animal health
- Runoff of animal waste
- Manure management
- Proximity of livestock pens to neighboring parcel boundaries
- Flies, vermin, insects, and other pests
- None; I am not concerned with nuisances related to livestock
- Other: .....

Please rank your top three nuisance concerns, with one being your greatest concern. If you responded "None" to the previous question, please respond "N/A" to this question. \*

N/A .....

### Final Comments & Future Outreach

We understand that there may still be some lingering questions or feedback that the survey did not cover but are still important for the Work Group and Town of Camp Verde to know.

If you would like to be contacted about future discussions regarding the zoning ordinance update, please contact the Camp Verde Community Development office at (928) 554-0050 or send an e-mail to [animalordinance@campverde.az.gov](mailto:animalordinance@campverde.az.gov). More information will be posted at this link:

<https://www.campverde.az.gov/departments/community-development/planning-zoning>.

Thank you for participating in our survey! We are looking forward to learning more from our residents to provide the best guidance for the keeping of livestock in Camp Verde.

Please list any remaining questions or feedback that you would like the team to know.

I feel as long as the animals are in a space that they have enough room to roam, feed and water; why bother people with their request of animals and their property. As long as the manure is cleaned regularly and animals are healthy, there should not be a reduction.

Please list any remaining questions or feedback that you would like the team to know.

The current horse "boarding" situation on Arena del Loma is disturbing to witness. Horses have no shade and barely enough room to move. Some look ill.

Please rank your top three nuisance concerns, with one being your greatest concern. If you responded "None" to the previous question, please respond "N/A" to this question. \*

none .....

### Final Comments & Future Outreach

We understand that there may still be some lingering questions or feedback that the survey did not cover but are still important for the Work Group and Town of Camp Verde to know.

If you would like to be contacted about future discussions regarding the zoning ordinance update, please contact the Camp Verde Community Development office at (928) 554-0050 or send an e-mail to [animalordinance@campverde.az.gov](mailto:animalordinance@campverde.az.gov). More information will be posted at this link:

<https://www.campverde.az.gov/departments/community-development/planning-zoning>.

Thank you for participating in our survey! We are looking forward to learning more from our residents to provide the best guidance for the keeping of livestock in Camp Verde.

Please list any remaining questions or feedback that you would like the team to know.

# Camp Verde Zoning Workshop: Livestock Update

## **Project Background**

Camp Verde's Planning and Zoning Ordinance outlines what is and isn't allowed in our town - it has shaped Camp Verde as we know it. To support our Town's long-term vision as our community grows and changes, we started the process of rewriting our zoning ordinance, specifically regarding the number of livestock permitted in the Town.

While the Planning and Zoning Commission and Town Council are considering multiple updates to the Town's Zoning Ordinance, there was a strong desire to give specific focus to Section 305 of the Ordinance, related to the keeping of livestock.

Phase I established a Work Group comprised of Camp Verde community members. The Work Group represented diverse perspectives, leading to dynamic discussions and innovative proposals to update the ordinance.

We are now in Phase II: Preliminary Outreach, where the Work Group and Town staff will partner to host a public Open House/Workshop and distribute a survey to seek feedback regarding the proposed changes.

Please note: if you do not have a Google/Gmail account, or do not wish to log in to your Google/Gmail account for this survey, you are still able to complete it. However, you will not be able to save your progress, so be sure to complete your survey in one sitting. Thank you!

## **Resident Profile**

We would like to understand who is participating in this important conversation! Your responses will be kept anonymous, but answering the first two questions will help our team better understand who is most interested in Camp Verde's livestock ordinances.

Please provide us with your zip code in the text field below. \*

86322

With regard to your personal experience relating to livestock, please mark all that apply: \*

- Current livestock owner
- Past livestock owner
- Neighbor of a current livestock owner
- Have never owned livestock
- Live in a neighborhood where livestock ownership is common
- Have experienced nuisances relating to livestock in Camp Verde
- Other: .....

### Land Uses

While our Work Group has discussed numerous issues, we want to be sure that the proposed zoning ordinance incorporates the public's concerns. Please provide input on the following items:

Section 305 of the current ordinance allots 24 animal points for a minimum lot size of ½ acre to \*  
1 acre. Each additional ¼ acre is allotted an additional 6 points. The Work Group's current recommendation is to retain this point count structure. Please mark one of the following:

- Point count should remain as recommended by the Work Group
- Point count should be decreased
- Point count should be increased by 50%
- Point count should be increased by 100%
- Point count should be increased by 200%
- There should be no restrictions on the number of livestock allowed

The Work Group is exploring some modifications to the animal point counts. The following is a list of scenarios being considered. Please mark all that you feel should be explored. \*

- Annual, renewable permits where a property owner who demonstrates excellence in compliance with nuisance management and livestock maintenance, can increase the number of livestock permitted on their property.
- An annual registry that allows for temporary (up to 30 days per year) increases in the number of livestock on a parcel of land.
- Increases in the number of livestock on a parcel of land between the hours of 6:00 am to 10:00 pm to provide opportunities for care, training, recreational activities, or other similar short-term activities.
- None
- Other (see next question to elaborate)

If you indicated "Other" in the question above, please explain. If not, feel free to write "N/A". \*

N/a

Please check all livestock nuisances you're concerned about. \*

- Noises
- Odors
- Lighting
- Animal health
- Runoff of animal waste
- Manure management
- Proximity of livestock pens to neighboring parcel boundaries
- Flies, vermin, insects, and other pests
- None; I am not concerned with nuisances related to livestock
- Other: .....

Please rank your top three nuisance concerns, with one being your greatest concern. If you responded "None" to the previous question, please respond "N/A" to this question. \*

Health, odor, flies .....

We are living the American dream thanks to our property. I'm able to grow our own produce and raise livestock for enjoyment and to feed our family. My husband and I teach have been fortunate to teach our own children and give other children who may not have been given the opportunity exposure to our lifestyle. Our neighbors support us and have been great so we've had no issue. It'd be a shame to see how things will change has the vacant lots around us sell.

While our Work Group has discussed numerous issues, we want to be sure that the proposed zoning ordinance incorporates the public's concerns. Please provide input on the following items:

Section 305 of the current ordinance allots 24 animal points for a minimum lot size of  $\frac{1}{2}$  acre to 1 acre. Each additional  $\frac{1}{4}$  acre is allotted an additional 6 points. The Work Group's current recommendation is to retain this point count structure. Please mark one of the following: \*

- Point count should remain as recommended by the Work Group
- Point count should be decreased
- Point count should be increased by 50%
- Point count should be increased by 100%
- Point count should be increased by 200%
- There should be no restrictions on the number of livestock allowed

The Work Group is exploring some modifications to the animal point counts. The following is a list of scenarios being considered. Please mark all that you feel should be explored. \*

- Annual, renewable permits where a property owner who demonstrates excellence in compliance with nuisance management and livestock maintenance, can increase the number of livestock permitted on their property.
- An annual registry that allows for temporary (up to 30 days per year) increases in the number of livestock on a parcel of land.
- Increases in the number of livestock on a parcel of land between the hours of 6:00 am to 10:00 pm to provide opportunities for care, training, recreational activities, or other similar short-term activities.
- None
- Other (see next question to elaborate)

If you indicated "Other" in the question above, please explain. If not, feel free to write "N/A". \*

N/A

---

Please check all livestock nuisances you're concerned about. \*

- Noises
- Odors
- Lighting
- Animal health
- Runoff of animal waste
- Manure management
- Proximity of livestock pens to neighboring parcel boundaries
- Flies, vermin, insects, and other pests
- None; I am not concerned with nuisances related to livestock
- Other: .....

Please rank your top three nuisance concerns, with one being your greatest concern. If you responded "None" to the previous question, please respond "N/A" to this question. \*

Proximity and setback; manure management; odors .....

### Final Comments & Future Outreach

We understand that there may still be some lingering questions or feedback that the survey did not cover but are still important for the Work Group and Town of Camp Verde to know.

If you would like to be contacted about future discussions regarding the zoning ordinance update, please contact the Camp Verde Community Development office at (928) 554-0050 or send an e-mail to [animalordinance@campverde.az.gov](mailto:animalordinance@campverde.az.gov). More information will be posted at this link:

<https://www.campverde.az.gov/departments/community-development/planning-zoning>.

Thank you for participating in our survey! We are looking forward to learning more from our residents to provide the best guidance for the keeping of livestock in Camp Verde.

Please list any remaining questions or feedback that you would like the team to know.

The PIG allocation is absurd - way too high. The management of pig manure is more complex than all other livestock types combined. The community has lost confidence in Code Enforcement.

# Camp Verde Zoning Workshop: Livestock Update

## **Project Background**

Camp Verde's Planning and Zoning Ordinance outlines what is and isn't allowed in our town - it has shaped Camp Verde as we know it. To support our Town's long-term vision as our community grows and changes, we started the process of rewriting our zoning ordinance, specifically regarding the number of livestock permitted in the Town.

While the Planning and Zoning Commission and Town Council are considering multiple updates to the Town's Zoning Ordinance, there was a strong desire to give specific focus to Section 305 of the Ordinance, related to the keeping of livestock.

Phase I established a Work Group comprised of Camp Verde community members. The Work Group represented diverse perspectives, leading to dynamic discussions and innovative proposals to update the ordinance.

We are now in Phase II: Preliminary Outreach, where the Work Group and Town staff will partner to host a public Open House/Workshop and distribute a survey to seek feedback regarding the proposed changes.

Please note: if you do not have a Google/Gmail account, or do not wish to log in to your Google/Gmail account for this survey, you are still able to complete it. However, you will not be able to save your progress, so be sure to complete your survey in one sitting. Thank you!

## **Resident Profile**

We would like to understand who is participating in this important conversation! Your responses will be kept anonymous, but answering the first two questions will help our team better understand who is most interested in Camp Verde's livestock ordinances.

Please provide us with your zip code in the text field below. \*

86322

With regard to your personal experience relating to livestock, please mark all that apply: \*

- Current livestock owner
- Past livestock owner
- Neighbor of a current livestock owner
- Have never owned livestock
- Live in a neighborhood where livestock ownership is common
- Have experienced nuisances relating to livestock in Camp Verde
- Other: 5th generation az native

### Land Uses

While our Work Group has discussed numerous issues, we want to be sure that the proposed zoning ordinance incorporates the public's concerns. Please provide input on the following items:

Section 305 of the current ordinance allots 24 animal points for a minimum lot size of  $\frac{1}{2}$  acre to 1 acre. Each additional  $\frac{1}{4}$  acre is allotted an additional 6 points. Please rank your top three nuisance concerns, with one being your greatest concern. If you responded "None" to the previous question, please respond "N/A" to this question. \*

Animal Health

Manure

Largely concerned that proximity to property line is being discussed. Owners should be allowed to go up to their property line with whatever they want to do

Concerned we are catering to people worried about lights and odors it sounds like they should buy their own island or move somewhere very remote.

Please list any remaining questions or feedback that you would like the team to know.

There should not be an animal count. It should be up to the land owner to decide how many animals their land can support. If a complaint is filed , it should be investigated and dealt with accordingly. There should not be a permit or registry for any guest animals on a property. I will not be filing with the town to let them know a friend is bringing over their animals for a few days. It is not necessary for them to know this.

# Camp Verde Zoning Workshop: Livestock Update

## **Project Background**

Camp Verde's Planning and Zoning Ordinance outlines what is and isn't allowed in our town - it has shaped Camp Verde as we know it. To support our Town's long-term vision as our community grows and changes, we started the process of rewriting our zoning ordinance, specifically regarding the number of livestock permitted in the Town.

While the Planning and Zoning Commission and Town Council are considering multiple updates to the Town's Zoning Ordinance, there was a strong desire to give specific focus to Section 305 of the Ordinance, related to the keeping of livestock.

Phase I established a Work Group comprised of Camp Verde community members. The Work Group represented diverse perspectives, leading to dynamic discussions and innovative proposals to update the ordinance.

We are now in Phase II: Preliminary Outreach, where the Work Group and Town staff will partner to host a public Open House/Workshop and distribute a survey to seek feedback regarding the proposed changes.

Please note: if you do not have a Google/Gmail account, or do not wish to log in to your Google/Gmail account for this survey, you are still able to complete it. However, you will not be able to save your progress, so be sure to complete your survey in one sitting. Thank you!

## **Resident Profile**

We would like to understand who is participating in this important conversation! Your responses will be kept anonymous, but answering the first two questions will help our team better understand who is most interested in Camp Verde's livestock ordinances.

Please provide us with your zip code in the text field below. \*

86322

With regard to your personal experience relating to livestock, please mark all that apply: \*

- Current livestock owner
- Past livestock owner
- Neighbor of a current livestock owner
- Have never owned livestock
- Live in a neighborhood where livestock ownership is common
- Have experienced nuisances relating to livestock in Camp Verde
- Other: .....

## Land Uses

While our Work Group has discussed numerous issues, we want to be sure that the proposed zoning ordinance incorporates the public's concerns. Please provide input on the following items:

Section 305 of the current ordinance allots 24 animal points for a minimum lot size of ½ acre to 1 acre. Each additional ¼ acre is allotted an additional 6 points. The Work Group's current recommendation is to retain this point count structure. Please mark one of the following: \*

- Point count should remain as recommended by the Work Group
- Point count should be decreased
- Point count should be increased by 50%
- Point count should be increased by 100%
- Point count should be increased by 200%
- There should be no restrictions on the number of livestock allowed

The Work Group is exploring some modifications to the animal point counts. The following is a list of scenarios being considered. Please mark all that you feel should be explored. \*

- Annual, renewable permits where a property owner who demonstrates excellence in compliance with nuisance management and livestock maintenance, can increase the number of livestock permitted on their property.
- An annual registry that allows for temporary (up to 30 days per year) increases in the number of livestock on a parcel of land.
- Increases in the number of livestock on a parcel of land between the hours of 6:00 am to 10:00 pm to provide opportunities for care, training, recreational activities, or other similar short-term activities.
- None
- Other (see next question to elaborate)

If you indicated "Other" in the question above, please explain. If not, feel free to write "N/A". \*

N/A

---

Please check all livestock nuisances you're concerned about. \*

- Noises
- Odors
- Lighting
- Animal health
- Runoff of animal waste
- Manure management
- Proximity of livestock pens to neighboring parcel boundaries
- Flies, vermin, insects, and other pests
- None; I am not concerned with nuisances related to livestock
- Other: .....

Please rank your top three nuisance concerns, with one being your greatest concern. If you responded "None" to the previous question, please respond "N/A" to this question. \*

N/A .....

### Final Comments & Future Outreach

We understand that there may still be some lingering questions or feedback that the survey did not cover but are still important for the Work Group and Town of Camp Verde to know.

If you would like to be contacted about future discussions regarding the zoning ordinance update, please contact the Camp Verde Community Development office at (928) 554-0050 or send an e-mail to [animalordinance@campverde.az.gov](mailto:animalordinance@campverde.az.gov). More information will be posted at this link:

<https://www.campverde.az.gov/departments/community-development/planning-zoning>.

Thank you for participating in our survey! We are looking forward to learning more from our residents to provide the best guidance for the keeping of livestock in Camp Verde.

Please list any remaining questions or feedback that you would like the team to know.

Thank you for participating in our survey! We are looking forward to learning more from our residents to provide the best guidance for the keeping of livestock in Camp Verde.

Please list any remaining questions or feedback that you would like the team to know.

I'm concerned that this agenda is being pushed by outside parties that don't represent the hard working families of camp verde that don't have the time to invest into such forums. Countless number of residents are working multiple jobs, raising kids, and tending to their animals and rural lives with the inability to stand up for their rights to use their own private property. They are the heart and soul of this community and they don't deserve to be trampled on by a few loud voices who have made a career on complaining.

If you indicated "Other" in the question above, please explain. If not, feel free to write "N/A". \*

N/A

---

Please check all livestock nuisances you're concerned about. \*

- Noises
- Odors
- Lighting
- Animal health
- Runoff of animal waste
- Manure management
- Proximity of livestock pens to neighboring parcel boundaries
- Flies, vermin, insects, and other pests
- None; I am not concerned with nuisances related to livestock
- Other: NONE

Please rank your top three nuisance concerns, with one being your greatest concern. If you responded "None" to the previous question, please respond "N/A" to this question. \*

N/A

### Final Comments & Future Outreach

We understand that there may still be some lingering questions or feedback that the survey did not cover but are still important for the Work Group and Town of Camp Verde to know.

If you would like to be contacted about future discussions regarding the zoning ordinance update, please contact the Camp Verde Community Development office at (928) 554-0050 or send an e-mail to [animalordinance@campverde.az.gov](mailto:animalordinance@campverde.az.gov). More information will be posted at this link:

<https://www.campverde.az.gov/departments/community-development/planning-zoning>.

Thank you for participating in our survey! We are looking forward to learning more from our residents to provide the best guidance for the keeping of livestock in Camp Verde.

Please list any remaining questions or feedback that you would like the team to know.

I think you shouldn't act like Nazis! If you don't like livestock don't buy a house next door then cry about it!!!!

# Camp Verde Zoning Workshop: Livestock Update

## **Project Background**

Camp Verde's Planning and Zoning Ordinance outlines what is and isn't allowed in our town - it has shaped Camp Verde as we know it. To support our Town's long-term vision as our community grows and changes, we started the process of rewriting our zoning ordinance, specifically regarding the number of livestock permitted in the Town.

While the Planning and Zoning Commission and Town Council are considering multiple updates to the Town's Zoning Ordinance, there was a strong desire to give specific focus to Section 305 of the Ordinance, related to the keeping of livestock.

Phase I established a Work Group comprised of Camp Verde community members. The Work Group represented diverse perspectives, leading to dynamic discussions and innovative proposals to update the ordinance.

We are now in Phase II: Preliminary Outreach, where the Work Group and Town staff will partner to host a public Open House/Workshop and distribute a survey to seek feedback regarding the proposed changes.

Please note: if you do not have a Google/Gmail account, or do not wish to log in to your Google/Gmail account for this survey, you are still able to complete it. However, you will not be able to save your progress, so be sure to complete your survey in one sitting. Thank you!

## **Resident Profile**

We would like to understand who is participating in this important conversation! Your responses will be kept anonymous, but answering the first two questions will help our team better understand who is most interested in Camp Verde's livestock ordinances.

Please provide us with your zip code in the text field below. \*

86322

With regard to your personal experience relating to livestock, please mark all that apply: \*

- Current livestock owner
- Past livestock owner
- Neighbor of a current livestock owner
- Have never owned livestock
- Live in a neighborhood where livestock ownership is common
- Have experienced nuisances relating to livestock in Camp Verde
- Other: .....

## Land Uses

While our Work Group has discussed numerous issues, we want to be sure that the proposed zoning ordinance incorporates the public's concerns. Please provide input on the following items:

Section 305 of the current ordinance allots 24 animal points for a minimum lot size of  $\frac{1}{2}$  acre to 1 acre. Each additional  $\frac{1}{4}$  acre is allotted an additional 6 points. The Work Group's current recommendation is to retain this point count structure. Please mark one of the following: \*

- Point count should remain as recommended by the Work Group
- Point count should be decreased
- Point count should be increased by 50%
- Point count should be increased by 100%
- Point count should be increased by 200%
- There should be no restrictions on the number of livestock allowed

The Work Group is exploring some modifications to the animal point counts. The following is a list of scenarios being considered. Please mark all that you feel should be explored. \*

- Annual, renewable permits where a property owner who demonstrates excellence in compliance with nuisance management and livestock maintenance, can increase the number of livestock permitted on their property.
- An annual registry that allows for temporary (up to 30 days per year) increases in the number of livestock on a parcel of land.
- Increases in the number of livestock on a parcel of land between the hours of 6:00 am to 10:00 pm to provide opportunities for care, training, recreational activities, or other similar short-term activities.
- None
- Other (see next question to elaborate)

If you indicated "Other" in the question above, please explain. If not, feel free to write "N/A". \*

I don't think we should have to have a permit or anything to increase the number of livestock, as long as people can feed and take care of the animals it shouldn't matter how many or what kind they have.

Please check all livestock nuisances you're concerned about. \*

- Noises
- Odors
- Lighting
- Animal health
- Runoff of animal waste
- Manure management
- Proximity of livestock pens to neighboring parcel boundaries
- Flies, vermin, insects, and other pests
- None; I am not concerned with nuisances related to livestock
- Other: .....

Please rank your top three nuisance concerns, with one being your greatest concern. If you responded "None" to the previous question, please respond "N/A" to this question. \*

I feel having a maintained amount of the animal count and people clean up the manure from the animals to maintain the flys

A lot of work! If no code enforcement what is the purpose. Maybe an animal count tax to pay for a code officer

## Land Uses

While our Work Group has discussed numerous issues, we want to be sure that the proposed zoning ordinance incorporates the public's concerns. Please provide input on the following items:

Section 305 of the current ordinance allots 24 animal points for a minimum lot size of ½ acre to 1 acre. Each additional ¼ acre is allotted an additional 6 points. The Work Group's current recommendation is to retain this point count structure. Please mark one of the following: \*

- Point count should remain as recommended by the Work Group
- Point count should be decreased
- Point count should be increased by 50%
- Point count should be increased by 100%
- Point count should be increased by 200%
- There should be no restrictions on the number of livestock allowed

The Work Group is exploring some modifications to the animal point counts. The following is a list of scenarios being considered. Please mark all that you feel should be explored. \*

- Annual, renewable permits where a property owner who demonstrates excellence in compliance with nuisance management and livestock maintenance, can increase the number of livestock permitted on their property.
- An annual registry that allows for temporary (up to 30 days per year) increases in the number of livestock on a parcel of land.
- Increases in the number of livestock on a parcel of land between the hours of 6:00 am to 10:00 pm to provide opportunities for care, training, recreational activities, or other similar short-term activities.
- None
- Other (see next question to elaborate)

If you indicated "Other" in the question above, please explain. If not, feel free to write "N/A". \*

My land i don't need a permit

Please check all livestock nuisances you're concerned about. \*

- Noises
- Odors
- Lighting
- Animal health
- Runoff of animal waste
- Manure management
- Proximity of livestock pens to neighboring parcel boundaries
- Flies, vermin, insects, and other pests
- None; I am not concerned with nuisances related to livestock
- Other: .....

Please rank your top three nuisance concerns, with one being your greatest concern. If you responded "None" to the previous question, please respond "N/A" to this question. \*

NA .....

### Final Comments & Future Outreach

We understand that there may still be some lingering questions or feedback that the survey did not cover but are still important for the Work Group and Town of Camp Verde to know.

If you would like to be contacted about future discussions regarding the zoning ordinance update, please contact the Camp Verde Community Development office at (928) 554-0050 or send an e-mail to [animalordinance@campverde.az.gov](mailto:animalordinance@campverde.az.gov). More information will be posted at this link:

<https://www.campverde.az.gov/departments/community-development/planning-zoning>.

Thank you for participating in our survey! We are looking forward to learning more from our residents to provide the best guidance for the keeping of livestock in Camp Verde.

Please list any remaining questions or feedback that you would like the team to know.

# Camp Verde Zoning Workshop: Livestock Update

## **Project Background**

Camp Verde's Planning and Zoning Ordinance outlines what is and isn't allowed in our town - it has shaped Camp Verde as we know it. To support our Town's long-term vision as our community grows and changes, we started the process of rewriting our zoning ordinance, specifically regarding the number of livestock permitted in the Town.

While the Planning and Zoning Commission and Town Council are considering multiple updates to the Town's Zoning Ordinance, there was a strong desire to give specific focus to Section 305 of the Ordinance, related to the keeping of livestock.

Phase I established a Work Group comprised of Camp Verde community members. The Work Group represented diverse perspectives, leading to dynamic discussions and innovative proposals to update the ordinance.

We are now in Phase II: Preliminary Outreach, where the Work Group and Town staff will partner to host a public Open House/Workshop and distribute a survey to seek feedback regarding the proposed changes.

Please note: if you do not have a Google/Gmail account, or do not wish to log in to your Google/Gmail account for this survey, you are still able to complete it. However, you will not be able to save your progress, so be sure to complete your survey in one sitting. Thank you!

## **Resident Profile**

We would like to understand who is participating in this important conversation! Your responses will be kept anonymous, but answering the first two questions will help our team better understand who is most interested in Camp Verde's livestock ordinances.

Please provide us with your zip code in the text field below. \*

86322

With regard to your personal experience relating to livestock, please mark all that apply: \*

- Current livestock owner
- Past livestock owner
- Neighbor of a current livestock owner
- Have never owned livestock
- Live in a neighborhood where livestock ownership is common
- Have experienced nuisances relating to livestock in Camp Verde
- Other: .....

How to deal with people that constantly complain. If a complaint is unfounded, the complainer needs to be held accountable for wasting staff's time and resources. ie, taxpayer's money.

Please list any remaining questions or feedback that you would like the team to know.

We moved to Camp Verde over 20 years ago to raise our children and both attended CVES, CVMS graduated from Camp Verde High school with Honors both kids raised animals for the Verde Valley Fair and learned the responsibility of caring for their animals. Now it appears out of state people have moved in and are complaining and wanting their rules and their ways to control our way of life. So sad that their way of life is like a cancer growing and taking over our small town. Maybe just investigate a complaint but don't regulate for a year if it is not necessary(to much big brother). Often people complaining don't even understand the genetics of a species or breed of animal . I.E. dairy cattle or aging process of an old horse .

# Camp Verde Zoning Workshop: Livestock Update

## **Project Background**

Camp Verde's Planning and Zoning Ordinance outlines what is and isn't allowed in our town - it has shaped Camp Verde as we know it. To support our Town's long-term vision as our community grows and changes, we started the process of rewriting our zoning ordinance, specifically regarding the number of livestock permitted in the Town.

While the Planning and Zoning Commission and Town Council are considering multiple updates to the Town's Zoning Ordinance, there was a strong desire to give specific focus to Section 305 of the Ordinance, related to the keeping of livestock.

Phase I established a Work Group comprised of Camp Verde community members. The Work Group represented diverse perspectives, leading to dynamic discussions and innovative proposals to update the ordinance.

We are now in Phase II: Preliminary Outreach, where the Work Group and Town staff will partner to host a public Open House/Workshop and distribute a survey to seek feedback regarding the proposed changes.

Please note: if you do not have a Google/Gmail account, or do not wish to log in to your Google/Gmail account for this survey, you are still able to complete it. However, you will not be able to save your progress, so be sure to complete your survey in one sitting. Thank you!

## **Resident Profile**

We would like to understand who is participating in this important conversation! Your responses will be kept anonymous, but answering the first two questions will help our team better understand who is most interested in Camp Verde's livestock ordinances.

Please provide us with your zip code in the text field below. \*

86322

With regard to your personal experience relating to livestock, please mark all that apply: \*

- Current livestock owner
- Past livestock owner
- Neighbor of a current livestock owner
- Have never owned livestock
- Live in a neighborhood where livestock ownership is common
- Have experienced nuisances relating to livestock in Camp Verde
- Other: .....

## Land Uses

While our Work Group has discussed numerous issues, we want to be sure that the proposed zoning ordinance incorporates the public's concerns. Please provide input on the following items:

Section 305 of the current ordinance allots 24 animal points for a minimum lot size of ½ acre to \*  
1 acre. Each additional ¼ acre is allotted an additional 6 points. The Work Group's current recommendation is to retain this point count structure. Please mark one of the following:

- Point count should remain as recommended by the Work Group
- Point count should be decreased
- Point count should be increased by 50%
- Point count should be increased by 100%
- Point count should be increased by 200%
- There should be no restrictions on the number of livestock allowed

The Work Group is exploring some modifications to the animal point counts. The following is a list of scenarios being considered. Please mark all that you feel should be explored. \*

- Annual, renewable permits where a property owner who demonstrates excellence in compliance with nuisance management and livestock maintenance, can increase the number of livestock permitted on their property.
- An annual registry that allows for temporary (up to 30 days per year) increases in the number of livestock on a parcel of land.
- Increases in the number of livestock on a parcel of land between the hours of 6:00 am to 10:00 pm to provide opportunities for care, training, recreational activities, or other similar short-term activities.
- None
- Other (see next question to elaborate)

If you indicated "Other" in the question above, please explain. If not, feel free to write "N/A". \*

A permit for the increased count should not be required as there are already codes in place to be able to enforce nuisances and monitor. If There isn't a need to get additional permission to utilize your land in accordance with a code that allows for certain amount of points per acre. we don't need more hassle for the town staff. It is enforceable by other codes that manage nuisance complaints and that is genuinely the only concern other community members would have. Having a permit is duplicating something that doesn't need duplication.

---

Please check all livestock nuisances you're concerned about. \*

- Noises
- Odors
- Lighting
- Animal health
- Runoff of animal waste
- Manure management
- Proximity of livestock pens to neighboring parcel boundaries
- Flies, vermin, insects, and other pests
- None; I am not concerned with nuisances related to livestock
- Other: .....

Please rank your top three nuisance concerns, with one being your greatest concern. If you responded "None" to the previous question, please respond "N/A" to this question. \*

NA .....

### Final Comments & Future Outreach

We understand that there may still be some lingering questions or feedback that the survey did not cover but are still important for the Work Group and Town of Camp Verde to know.

If you would like to be contacted about future discussions regarding the zoning ordinance update, please contact the Camp Verde Community Development office at (928) 554-0050 or send an e-mail to [animalordinance@campverde.az.gov](mailto:animalordinance@campverde.az.gov). More information will be posted at this link:

<https://www.campverde.az.gov/departments/community-development/planning-zoning>.

Thank you for participating in our survey! We are looking forward to learning more from our residents to provide the best guidance for the keeping of livestock in Camp Verde.

Please list any remaining questions or feedback that you would like the team to know.

- None
- Other (see next question to elaborate)

If you indicated "Other" in the question above, please explain. If not, feel free to write "N/A". \*

I do not want any further restrictions put on what I can do on my own property. There are already codes in place for neighbors to address nuisances and I feel that is adequate.

---

Please check all livestock nuisances you're concerned about. \*

- Noises
- Odors
- Lighting
- Animal health
- Runoff of animal waste
- Manure management
- Proximity of livestock pens to neighboring parcel boundaries
- Flies, vermin, insects, and other pests
- None; I am not concerned with nuisances related to livestock
- Other: .....

Please rank your top three nuisance concerns, with one being your greatest concern. If you responded "None" to the previous question, please respond "N/A" to this question. \*

Animal health, flies, manure management .....

### Final Comments & Future Outreach

We understand that there may still be some lingering questions or feedback that the survey did not cover but are still important for the Work Group and Town of Camp Verde to know.

If you would like to be contacted about future discussions regarding the zoning ordinance update, please contact the Camp Verde Community Development office at (928) 554-0050 or send an e-mail to [animalordinance@campverde.az.gov](mailto:animalordinance@campverde.az.gov). More information will be posted at this link:

<https://www.campverde.az.gov/departments/community-development/planning-zoning>.

Thank you for participating in our survey! We are looking forward to learning more from our residents to provide the best guidance for the keeping of livestock in Camp Verde.

Please list any remaining questions or feedback that you would like the team to know.

# Camp Verde Zoning Workshop: Livestock Update

## **Project Background**

Camp Verde's Planning and Zoning Ordinance outlines what is and isn't allowed in our town - it has shaped Camp Verde as we know it. To support our Town's long-term vision as our community grows and changes, we started the process of rewriting our zoning ordinance, specifically regarding the number of livestock permitted in the Town.

While the Planning and Zoning Commission and Town Council are considering multiple updates to the Town's Zoning Ordinance, there was a strong desire to give specific focus to Section 305 of the Ordinance, related to the keeping of livestock.

Phase I established a Work Group comprised of Camp Verde community members. The Work Group represented diverse perspectives, leading to dynamic discussions and innovative proposals to update the ordinance.

We are now in Phase II: Preliminary Outreach, where the Work Group and Town staff will partner to host a public Open House/Workshop and distribute a survey to seek feedback regarding the proposed changes.

Please note: if you do not have a Google/Gmail account, or do not wish to log in to your Google/Gmail account for this survey, you are still able to complete it. However, you will not be able to save your progress, so be sure to complete your survey in one sitting. Thank you!

## **Resident Profile**

We would like to understand who is participating in this important conversation! Your responses will be kept anonymous, but answering the first two questions will help our team better understand who is most interested in Camp Verde's livestock ordinances.

Please provide us with your zip code in the text field below. \*

86322

With regard to your personal experience relating to livestock, please mark all that apply: \*

- Current livestock owner
- Past livestock owner
- Neighbor of a current livestock owner
- Have never owned livestock
- Live in a neighborhood where livestock ownership is common
- Have experienced nuisances relating to livestock in Camp Verde
- Other: .....

### Land Uses

While our Work Group has discussed numerous issues, we want to be sure that the proposed zoning ordinance incorporates the public's concerns. Please provide input on the following items:

Section 305 of the current ordinance allots 24 animal points for a minimum lot size of ½ acre to \*  
1 acre. Each additional ¼ acre is allotted an additional 6 points. The Work Group's current recommendation is to retain this point count structure. Please mark one of the following:

- Point count should remain as recommended by the Work Group
- Point count should be decreased
- Point count should be increased by 50%
- Point count should be increased by 100%
- Point count should be increased by 200%
- There should be no restrictions on the number of livestock allowed

The Work Group is exploring some modifications to the animal point counts. The following is a list of scenarios being considered. Please mark all that you feel should be explored. \*

- Annual, renewable permits where a property owner who demonstrates excellence in compliance with nuisance management and livestock maintenance, can increase the number of livestock permitted on their property.
- An annual registry that allows for temporary (up to 30 days per year) increases in the number of livestock on a parcel of land.
- Increases in the number of livestock on a parcel of land between the hours of 6:00 am to 10:00 pm to provide opportunities for care, training, recreational activities, or other similar short-term activities.
- None
- Other (see next question to elaborate)

If you indicated "Other" in the question above, please explain. If not, feel free to write "N/A". \*

N?A

Don't let outside opinions affect decisions that will affect everyone.

People with animals should not be constricted by people who have never owned animals and or do not like their neighbor.

Lots of complainers because there's nothing better to do

While our Work Group has discussed numerous issues, we want to be sure that the proposed zoning ordinance incorporates the public's concerns. Please provide input on the following items:

Section 305 of the current ordinance allots 24 animal points for a minimum lot size of ½ acre to \*  
1 acre. Each additional ¼ acre is allotted an additional 6 points. The Work Group's current recommendation is to retain this point count structure. Please mark one of the following:

- Point count should remain as recommended by the Work Group
- Point count should be decreased
- Point count should be increased by 50%
- Point count should be increased by 100%
- Point count should be increased by 200%
- There should be no restrictions on the number of livestock allowed

The Work Group is exploring some modifications to the animal point counts. The following is a list of scenarios being considered. Please mark all that you feel should be explored. \*

- Annual, renewable permits where a property owner who demonstrates excellence in compliance with nuisance management and livestock maintenance, can increase the number of livestock permitted on their property.
- An annual registry that allows for temporary (up to 30 days per year) increases in the number of livestock on a parcel of land.
- Increases in the number of livestock on a parcel of land between the hours of 6:00 am to 10:00 pm to provide opportunities for care, training, recreational activities, or other similar short-term activities.
- None
- Other (see next question to elaborate)

If you indicated "Other" in the question above, please explain. If not, feel free to write "N/A". \*

N/A

Please check all livestock nuisances you're concerned about. \*

- Noises
- Odors
- Lighting
- Animal health
- Runoff of animal waste
- Manure management
- Proximity of livestock pens to neighboring parcel boundaries
- Flies, vermin, insects, and other pests
- None; I am not concerned with nuisances related to livestock
- Other: .....

Please rank your top three nuisance concerns, with one being your greatest concern. If you responded "None" to the previous question, please respond "N/A" to this question. \*

N/A .....

### Final Comments & Future Outreach

We understand that there may still be some lingering questions or feedback that the survey did not cover but are still important for the Work Group and Town of Camp Verde to know.

If you would like to be contacted about future discussions regarding the zoning ordinance update, please contact the Camp Verde Community Development office at (928) 554-0050 or send an e-mail to [animalordinance@campverde.az.gov](mailto:animalordinance@campverde.az.gov). More information will be posted at this link:

<https://www.campverde.az.gov/departments/community-development/planning-zoning>.

Thank you for participating in our survey! We are looking forward to learning more from our residents to provide the best guidance for the keeping of livestock in Camp Verde.

Please list any remaining questions or feedback that you would like the team to know.

# Camp Verde Zoning Workshop: Livestock Update

## **Project Background**

Camp Verde's Planning and Zoning Ordinance outlines what is and isn't allowed in our town - it has shaped Camp Verde as we know it. To support our Town's long-term vision as our community grows and changes, we started the process of rewriting our zoning ordinance, specifically regarding the number of livestock permitted in the Town.

While the Planning and Zoning Commission and Town Council are considering multiple updates to the Town's Zoning Ordinance, there was a strong desire to give specific focus to Section 305 of the Ordinance, related to the keeping of livestock.

Phase I established a Work Group comprised of Camp Verde community members. The Work Group represented diverse perspectives, leading to dynamic discussions and innovative proposals to update the ordinance.

We are now in Phase II: Preliminary Outreach, where the Work Group and Town staff will partner to host a public Open House/Workshop and distribute a survey to seek feedback regarding the proposed changes.

Please note: if you do not have a Google/Gmail account, or do not wish to log in to your Google/Gmail account for this survey, you are still able to complete it. However, you will not be able to save your progress, so be sure to complete your survey in one sitting. Thank you!

## **Resident Profile**

We would like to understand who is participating in this important conversation! Your responses will be kept anonymous, but answering the first two questions will help our team better understand who is most interested in Camp Verde's livestock ordinances.

Please provide us with your zip code in the text field below. \*

86322

With regard to your personal experience relating to livestock, please mark all that apply: \*

- Current livestock owner
- Past livestock owner
- Neighbor of a current livestock owner
- Have never owned livestock
- Live in a neighborhood where livestock ownership is common
- Have experienced nuisances relating to livestock in Camp Verde
- Other: .....

## Land Uses

While our Work Group has discussed numerous issues, we want to be sure that the proposed zoning ordinance incorporates the public's concerns. Please provide input on the following items:

Section 305 of the current ordinance allots 24 animal points for a minimum lot size of  $\frac{1}{2}$  acre to \*  
1 acre. Each additional  $\frac{1}{4}$  acre is allotted an additional 6 points. The Work Group's current recommendation is to retain this point count structure. Please mark one of the following:

- Point count should remain as recommended by the Work Group
- Point count should be decreased
- Point count should be increased by 50%
- Point count should be increased by 100%
- Point count should be increased by 200%

Please list any remaining questions or feedback that you would like the team to know.

My number one concern is the lack of code enforcement. Until that issue is resolved I support no change to our current animal point ordinance. Code enforcement is very lax if non existent in town so to adopt more ordinances when the town cannot or will not enforce current code is opening up a pandoras box of litigation

To support our Town's long-term vision as our community grows and changes, we started the process of rewriting our zoning ordinance, specifically regarding the number of livestock permitted in the Town.

While the Planning and Zoning Commission and Town Council are considering multiple updates to the Town's Zoning Ordinance, there was a strong desire to give specific focus to Section 305 of the Ordinance, related to the keeping of livestock.

Phase I established a Work Group comprised of Camp Verde community members. The Work Group represented diverse perspectives, leading to dynamic discussions and innovative proposals to update the ordinance.

We are now in Phase II: Preliminary Outreach, where the Work Group and Town staff will partner to host a public Open House/Workshop and distribute a survey to seek feedback regarding the proposed changes.

Please note: if you do not have a Google/Gmail account, or do not wish to log in to your Google/Gmail account for this survey, you are still able to complete it. However, you will not be able to save your progress, so be sure to complete your survey in one sitting. Thank you!

## **Resident Profile**

We would like to understand who is participating in this important conversation! Your responses will be kept anonymous, but answering the first two questions will help our team better understand who is most interested in Camp Verde's livestock ordinances.

Please provide us with your zip code in the text field below. \*

86322

With regard to your personal experience relating to livestock, please mark all that apply: \*

- Current livestock owner
- Past livestock owner
- Neighbor of a current livestock owner
- Have never owned livestock
- Live in a neighborhood where livestock ownership is common
- Have experienced nuisances relating to livestock in Camp Verde
- Other: .....

## Land Uses

While our Work Group has discussed numerous issues, we want to be sure that the proposed zoning ordinance incorporates the public's concerns. Please provide input on the following items:

Section 305 of the current ordinance allots 24 animal points for a minimum lot size of ½ acre to \*  
1 acre. Each additional ¼ acre is allotted an additional 6 points. The Work Group's current recommendation is to retain this point count structure. Please mark one of the following:

- Point count should remain as recommended by the Work Group
- Point count should be decreased
- Point count should be increased by 50%
- Point count should be increased by 100%
- Point count should be increased by 200%
- There should be no restrictions on the number of livestock allowed

The Work Group is exploring some modifications to the animal point counts. The following is a list of scenarios being considered. Please mark all that you feel should be explored. \*

- Annual, renewable permits where a property owner who demonstrates excellence in compliance with nuisance management and livestock maintenance, can increase the number of livestock permitted on their property.
- An annual registry that allows for temporary (up to 30 days per year) increases in the number of livestock on a parcel of land.
- Increases in the number of livestock on a parcel of land between the hours of 6:00 am to 10:00 pm to provide opportunities for care, training, recreational activities, or other similar short-term activities.
- None
- Other (see next question to elaborate)

If you indicated "Other" in the question above, please explain. If not, feel free to write "N/A". \*

N/A

---

Please check all livestock nuisances you're concerned about. \*

- Noises
- Odors
- Lighting
- Animal health
- Runoff of animal waste
- Manure management
- Proximity of livestock pens to neighboring parcel boundaries
- Flies, vermin, insects, and other pests
- None; I am not concerned with nuisances related to livestock
- Other: .....

Please rank your top three nuisance concerns, with one being your greatest concern. If you responded "None" to the previous question, please respond "N/A" to this question. \*

N/A .....

### Final Comments & Future Outreach

We understand that there may still be some lingering questions or feedback that the survey did not cover but are still important for the Work Group and Town of Camp Verde to know.

If you would like to be contacted about future discussions regarding the zoning ordinance update, please contact the Camp Verde Community Development office at (928) 554-0050 or send an e-mail to [animalordinance@campverde.az.gov](mailto:animalordinance@campverde.az.gov). More information will be posted at this link:

<https://www.campverde.az.gov/departments/community-development/planning-zoning>.

Thank you for participating in our survey! We are looking forward to learning more from our residents to provide the best guidance for the keeping of livestock in Camp Verde.

Please list any remaining questions or feedback that you would like the team to know.

We live in the country. I chose to move here because it was country. Please don't start regulating a bunch of rules or I will move out. I am a tax payer/business owner. I support public school programs and am very active in our community. If people do not like the way things are ran here, don't move here and try to change things. We love our Camp Verde the way it is.

I am, like many a snowbird to the small western town of Camp Verde. I come from a small western town and choose to winter vacation in Camp Verde because of its small town western feel. This is a tight knit family community that still encourages the youth of our lifestyle and nation. This community has raised some of the strongest, independent, hard working God fearing youth I've ever seen, please don't lose this because a young adult can't have livestock to care for and teach them responsibilities and the way of the world. Embrace your youth and those that encourage and teach them and continue your heritage, all this community was built upon. Keep the American dream and way of life alive in Camp Verde, be the leaders of what our nations needs to return to.

### Final Comments & Future Outreach

We understand that there may still be some lingering questions or feedback that the survey did not cover but are still important for the Work Group and Town of Camp Verde to know.

If you would like to be contacted about future discussions regarding the zoning ordinance update, please contact the Camp Verde Community Development office at (928) 554-0050 or send an e-mail to [animalordinance@campverde.az.gov](mailto:animalordinance@campverde.az.gov). More information will be posted at this link:

<https://www.campverde.az.gov/departments/community-development/planning-zoning>.

Thank you for participating in our survey! We are looking forward to learning more from our residents to provide the best guidance for the keeping of livestock in Camp Verde.

Please list any remaining questions or feedback that you would like the team to know.

There isn't even these kind of restrictions in rural California towns. This is beyond ridiculous. We are not a city we are country which includes animals and all that come with them. Please stop this nonsense

# Camp Verde Zoning Workshop: Livestock Update

## **Project Background**

Camp Verde's Planning and Zoning Ordinance outlines what is and isn't allowed in our town - it has shaped Camp Verde as we know it. To support our Town's long-term vision as our community grows and changes, we started the process of rewriting our zoning ordinance, specifically regarding the number of livestock permitted in the Town.

While the Planning and Zoning Commission and Town Council are considering multiple updates to the Town's Zoning Ordinance, there was a strong desire to give specific focus to Section 305 of the Ordinance, related to the keeping of livestock.

Phase I established a Work Group comprised of Camp Verde community members. The Work Group represented diverse perspectives, leading to dynamic discussions and innovative proposals to update the ordinance.

We are now in Phase II: Preliminary Outreach, where the Work Group and Town staff will partner to host a public Open House/Workshop and distribute a survey to seek feedback regarding the proposed changes.

Please note: if you do not have a Google/Gmail account, or do not wish to log in to your Google/Gmail account for this survey, you are still able to complete it. However, you will not be able to save your progress, so be sure to complete your survey in one sitting. Thank you!

## **Resident Profile**

We would like to understand who is participating in this important conversation! Your responses will be kept anonymous, but answering the first two questions will help our team better understand who is most interested in Camp Verde's livestock ordinances.

Please provide us with your zip code in the text field below. \*

85086

With regard to your personal experience relating to livestock, please mark all that apply: \*

- Current livestock owner
- Past livestock owner
- Neighbor of a current livestock owner
- Have never owned livestock
- Live in a neighborhood where livestock ownership is common
- Have experienced nuisances relating to livestock in Camp Verde
- Other: Clean

### Land Uses

While our Work Group has discussed numerous issues, we want to be sure that the proposed zoning ordinance incorporates the public's concerns. Please provide input on the following items:

Section 305 of the current ordinance allots 24 animal points for a minimum lot size of  $\frac{1}{2}$  acre to 1 acre. Each additional  $\frac{1}{4}$  acre is allotted an additional 6 points. The Work Group's current recommendation is to retain this point count structure. Please mark one of the following: \*

- Point count should remain as recommended by the Work Group
- Point count should be decreased
- Point count should be increased by 50%
- Point count should be increased by 100%
- Point count should be increased by 200%
- There should be no restrictions on the number of livestock allowed

The Work Group is exploring some modifications to the animal point counts. The following is a list of scenarios being considered. Please mark all that you feel should be explored. \*

- Annual, renewable permits where a property owner who demonstrates excellence in compliance with nuisance management and livestock maintenance, can increase the number of livestock permitted on their property.
- An annual registry that allows for temporary (up to 30 days per year) increases in the number of livestock on a parcel of land.
- Increases in the number of livestock on a parcel of land between the hours of 6:00 am to 10:00 pm to provide opportunities for care, training, recreational activities, or other similar short-term activities.
- None
- Other (see next question to elaborate)

If you indicated "Other" in the question above, please explain. If not, feel free to write "N/A". \*

I spend winters in camp verde, family owned an art gallery for many years in Sedona. Because of the political choices being made in this area the western way of life is being destroyed. Sedona which at one time was one of America's top wester art towns attracting high end tourists that supported all the communities close by, choices made there have destroyed business. I hope Camp Verde can wake up and not make same mistakes.

Limiting the number of livestock is redundant and overreaching. As we already have cleanliness and nuisance statutes and laws. If a person no matter the number of animals is already under scrutiny through these current laws and codes why are we adding another blanket restriction? If the nuisance of any Number of animals could rise to a level of non compliance why would we restrict those from having more animals if they can operate within nuisance and cleanliness compliance? This would be restrictions based on assumptions rather than performance.

Please list any remaining questions or feedback that you would like the team to know.

Historically all land use in AZ has been for agriculture livestock production and property owners use of their land. In the 1970's the county ushered in the first restrictions blanket zoning for development. This action alone removed most property owner's rights for use and production of their historic rights of their own land. The county offers AG related operations to apply for permission through an AD Exemption to restore these historic use rights. I'm opposed to any and all measures that reduce these god given and historic rights and force land owners to ask permission for the use of their property whether it be through a permit or a code. I am not opposed to cleanliness and odor laws because these are true actual nuisance perimeters that neighbors should adhere to. Beyond that it becomes a level of draconian restrictions and government overreach in my humble opinion.

To support our Town's long-term vision as our community grows and changes, we started the process of rewriting our zoning ordinance, specifically regarding the number of livestock permitted in the Town.

While the Planning and Zoning Commission and Town Council are considering multiple updates to the Town's Zoning Ordinance, there was a strong desire to give specific focus to Section 305 of the Ordinance, related to the keeping of livestock.

Phase I established a Work Group comprised of Camp Verde community members. The Work Group represented diverse perspectives, leading to dynamic discussions and innovative proposals to update the ordinance.

We are now in Phase II: Preliminary Outreach, where the Work Group and Town staff will partner to host a public Open House/Workshop and distribute a survey to seek feedback regarding the proposed changes.

Please note: if you do not have a Google/Gmail account, or do not wish to log in to your Google/Gmail account for this survey, you are still able to complete it. However, you will not be able to save your progress, so be sure to complete your survey in one sitting. Thank you!

## **Resident Profile**

We would like to understand who is participating in this important conversation! Your responses will be kept anonymous, but answering the first two questions will help our team better understand who is most interested in Camp Verde's livestock ordinances.

Please provide us with your zip code in the text field below. \*

86322

With regard to your personal experience relating to livestock, please mark all that apply: \*

- Current livestock owner
- Past livestock owner
- Neighbor of a current livestock owner
- Have never owned livestock
- Live in a neighborhood where livestock ownership is common
- Have experienced nuisances relating to livestock in Camp Verde
- Other: .....

### Land Uses

While our Work Group has discussed numerous issues, we want to be sure that the proposed zoning ordinance incorporates the public's concerns. Please provide input on the following items:

Section 305 of the current ordinance allots 24 animal points for a minimum lot size of ½ acre to \*  
1 acre. Each additional ¼ acre is allotted an additional 6 points. The Work Group's current recommendation is to retain this point count structure. Please mark one of the following:

- Point count should remain as recommended by the Work Group
- Point count should be decreased
- Point count should be increased by 50%
- Point count should be increased by 100%
- Point count should be increased by 200%
- There should be no restrictions on the number of livestock allowed

The Work Group is exploring some modifications to the animal point counts. The following is a list of scenarios being considered. Please mark all that you feel should be explored. \*

- Annual, renewable permits where a property owner who demonstrates excellence in compliance with nuisance management and livestock maintenance, can increase the number of livestock permitted on their property.
- An annual registry that allows for temporary (up to 30 days per year) increases in the number of livestock on a parcel of land.
- Increases in the number of livestock on a parcel of land between the hours of 6:00 am to 10:00 pm to provide opportunities for care, training, recreational activities, or other similar short-term activities.
- None
- Other (see next question to elaborate)

If you indicated "Other" in the question above, please explain. If not, feel free to write "N/A". \*

N/A

---

Please check all livestock nuisances you're concerned about. \*

- Noises
- Odors
- Lighting
- Animal health
- Runoff of animal waste
- Manure management
- Proximity of livestock pens to neighboring parcel boundaries
- Flies, vermin, insects, and other pests
- None; I am not concerned with nuisances related to livestock
- Other: .....

Please rank your top three nuisance concerns, with one being your greatest concern. If you responded "None" to the previous question, please respond "N/A" to this question. \*

Manure management .....

### Final Comments & Future Outreach

We understand that there may still be some lingering questions or feedback that the survey did not cover but are still important for the Work Group and Town of Camp Verde to know.

If you would like to be contacted about future discussions regarding the zoning ordinance update, please contact the Camp Verde Community Development office at (928) 554-0050 or send an e-mail to [animalordinance@campverde.az.gov](mailto:animalordinance@campverde.az.gov). More information will be posted at this link:

<https://www.campverde.az.gov/departments/community-development/planning-zoning>.

Thank you for participating in our survey! We are looking forward to learning more from our residents to provide the best guidance for the keeping of livestock in Camp Verde.

Please list any remaining questions or feedback that you would like the team to know.

1)Animal health 2) runoff from waste 3)proximity of livestock pens to neighbor fences .....

### Final Comments & Future Outreach

We understand that there may still be some lingering questions or feedback that the survey did not cover but are still important for the Work Group and Town of Camp Verde to know.

If you would like to be contacted about future discussions regarding the zoning ordinance update, please contact the Camp Verde Community Development office at (928) 554-0050 or send an e-mail to [animalordinance@campverde.az.gov](mailto:animalordinance@campverde.az.gov). More information will be posted at this link:

<https://www.campverde.az.gov/departments/community-development/planning-zoning>.

Thank you for participating in our survey! We are looking forward to learning more from our residents to provide the best guidance for the keeping of livestock in Camp Verde.

Please list any remaining questions or feedback that you would like the team to know.

I'm concerned about enforcement. I have a neighbor who has been told by the town that they have code violations. That was 3 years ago and still nothing has been done. People dint take it seriously.

# Camp Verde Zoning Workshop: Livestock Update

## **Project Background**

Camp Verde's Planning and Zoning Ordinance outlines what is and isn't allowed in our town - it has shaped Camp Verde as we know it. To support our Town's long-term vision as our community grows and changes, we started the process of rewriting our zoning ordinance, specifically regarding the number of livestock permitted in the Town.

While the Planning and Zoning Commission and Town Council are considering multiple updates to the Town's Zoning Ordinance, there was a strong desire to give specific focus to Section 305 of the Ordinance, related to the keeping of livestock.

Phase I established a Work Group comprised of Camp Verde community members. The Work Group represented diverse perspectives, leading to dynamic discussions and innovative proposals to update the ordinance.

We are now in Phase II: Preliminary Outreach, where the Work Group and Town staff will partner to host a public Open House/Workshop and distribute a survey to seek feedback regarding the proposed changes.

Please note: if you do not have a Google/Gmail account, or do not wish to log in to your Google/Gmail account for this survey, you are still able to complete it. However, you will not be able to save your progress, so be sure to complete your survey in one sitting. Thank you!

## **Resident Profile**

We would like to understand who is participating in this important conversation! Your responses will be kept anonymous, but answering the first two questions will help our team better understand who is most interested in Camp Verde's livestock ordinances.

Please provide us with your zip code in the text field below. \*

86322

With regard to your personal experience relating to livestock, please mark all that apply: \*

- Current livestock owner
- Past livestock owner
- Neighbor of a current livestock owner
- Have never owned livestock
- Live in a neighborhood where livestock ownership is common
- Have experienced nuisances relating to livestock in Camp Verde
- Other: .....

## Land Uses

While our Work Group has discussed numerous issues, we want to be sure that the proposed zoning ordinance incorporates the public's concerns. Please provide input on the following items:

Section 305 of the current ordinance allots 24 animal points for a minimum lot size of  $\frac{1}{2}$  acre to 1 acre. Each additional  $\frac{1}{4}$  acre is allotted an additional 6 points. The Work Group's current recommendation is to retain this point count structure. Please mark one of the following: \*

- Point count should remain as recommended by the Work Group
- Point count should be decreased
- Point count should be increased by 50%
- Point count should be increased by 100%
- Point count should be increased by 200%
- There should be no restrictions on the number of livestock allowed

The Work Group is exploring some modifications to the animal point counts. The following is a list of scenarios being considered. Please mark all that you feel should be explored. \*

- Annual, renewable permits where a property owner who demonstrates excellence in compliance with nuisance management and livestock maintenance, can increase the number of livestock permitted on their property.
- An annual registry that allows for temporary (up to 30 days per year) increases in the number of livestock on a parcel of land.
- Increases in the number of livestock on a parcel of land between the hours of 6:00 am to 10:00 pm to provide opportunities for care, training, recreational activities, or other similar short-term activities.
- None
- Other (see next question to elaborate)

If you indicated "Other" in the question above, please explain. If not, feel free to write "N/A". \*

I think this could get over regulated with too many non livestock people shutting down the rural lifestyle. It seems to become all red tape and also a tax burden. Maybe the money that will be spent on regulation should be spent on enforcement of reasonable logical laws (that address the conditions of the animals and the habitat) Possibly expand your code enforcement to include an officer that is in charge of animal neglect rather than animal count.

---

Please check all livestock nuisances you're concerned about. \*

- Noises
- Odors
- Lighting
- Animal health
- Runoff of animal waste
- Manure management
- Proximity of livestock pens to neighboring parcel boundaries
- Flies, vermin, insects, and other pests
- None; I am not concerned with nuisances related to livestock
- Other: Holding people accountable in their consideration

Please rank your top three nuisance concerns, with one being your greatest concern. If you responded "None" to the previous question, please respond "N/A" to this question. \*

Greatest concern is over regulation by people who don't have common sense and also no common sense laws..

### Final Comments & Future Outreach

Please list any remaining questions or feedback that you would like the team to know.

Camp Verde has a unique opportunity right now to stand out as a community that backs up rural living. You will not be able to please everyone but why do things have to change for the non rural folks. Stand for something or we will fall into urban decline. One more thing...fowl must be addressed in the big picture...for example there is a lady in our neighborhood who has 75 peacocks. Do you all think that is a peaceful evening Nosie for the neighborhood? Logic and digression would give an officer the right to stop that.

Adults own property and they should be able to decided how they use that property. While I understand there are a few bad ones here or there they should not be able to ruin the ability of all others to choose what to do with their property. The vast majority of those that raise animals are not going to put their animals in a bad situation. By limiting the use of the property you limit people's ability to raise their own food and teach their family about raising/growing food as well as limiting the enjoyment that they can get from their home.

Please provide us with your zip code in the text field below. \*

86322

With regard to your personal experience relating to livestock, please mark all that apply: \*

- Current livestock owner
- Past livestock owner
- Neighbor of a current livestock owner
- Have never owned livestock
- Live in a neighborhood where livestock ownership is common
- Have experienced nuisances relating to livestock in Camp Verde
- Other: Violation of the number of livestock allowed per property size.

## Land Uses

While our Work Group has discussed numerous issues, we want to be sure that the proposed zoning ordinance incorporates the public's concerns. Please provide input on the following items:

Section 305 of the current ordinance allots 24 animal points for a minimum lot size of  $\frac{1}{2}$  acre to 1 acre. Each additional  $\frac{1}{4}$  acre is allotted an additional 6 points. The Work Group's current recommendation is to retain this point count structure. Please mark one of the following: \*

- Point count should remain as recommended by the Work Group
- Point count should be decreased
- Point count should be increased by 50%
- Point count should be increased by 100%
- Point count should be increased by 200%
- There should be no restrictions on the number of livestock allowed

The Work Group is exploring some modifications to the animal point counts. The following is a list of scenarios being considered. Please mark all that you feel should be explored. \*

- Annual, renewable permits where a property owner who demonstrates excellence in compliance with nuisance management and livestock maintenance, can increase the number of livestock permitted on their property.
- An annual registry that allows for temporary (up to 30 days per year) increases in the number of livestock on a parcel of land.
- Increases in the number of livestock on a parcel of land between the hours of 6:00 am to 10:00 pm to provide opportunities for care, training, recreational activities, or other similar short-term activities.
- None
- Other (see next question to elaborate)

If you indicated "Other" in the question above, please explain. If not, feel free to write "N/A". \*

There should be lower number of total points on in town residential properties. Especially where there are a large number of smaller residential parcels impacted by larger parcels.

---

Please check all livestock nuisances you're concerned about. \*

- Noises
- Odors
- Lighting
- Animal health
- Runoff of animal waste
- Manure management
- Proximity of livestock pens to neighboring parcel boundaries
- Flies, vermin, insects, and other pests
- None; I am not concerned with nuisances related to livestock
- Other: .....

Please rank your top three nuisance concerns, with one being your greatest concern. If you responded "None" to the previous question, please respond "N/A" to this question. \*

1. Flies, vermin, insects, pests, and odors
  2. Proximity of livestock pens to neighboring parcel boundaries
  3. Manure Management
- .....

### Final Comments & Future Outreach

We understand that there may still be some lingering questions or feedback that the survey did not cover but are still important for the Work Group and Town of Camp Verde to know.

If you would like to be contacted about future discussions regarding the zoning ordinance update, please contact the Camp Verde Community Development office at (928) 554-0050 or send an e-mail to [animalordinance@campverde.az.gov](mailto:animalordinance@campverde.az.gov). More information will be posted at this link: <https://www.campverde.az.gov/departments/community-development/planning-zoning>.

Thank you for participating in our survey! We are looking forward to learning more from our residents to provide the best guidance for the keeping of livestock in Camp Verde.

Please list any remaining questions or feedback that you would like the team to know.

Violations seem to be common and when offenders are approached with a valid complaint, they become unfriendly therefore zoning must step in to enforce codes. Suggestion, as a rule of thumb,, large livestock DOES NOT belong in populated residential areas.

# Camp Verde Zoning Workshop: Livestock Update

## **Project Background**

Camp Verde's Planning and Zoning Ordinance outlines what is and isn't allowed in our town - it has shaped Camp Verde as we know it. To support our Town's long-term vision as our community grows and changes, we started the process of rewriting our zoning ordinance, specifically regarding the number of livestock permitted in the Town.

While the Planning and Zoning Commission and Town Council are considering multiple updates to the Town's Zoning Ordinance, there was a strong desire to give specific focus to Section 305 of the Ordinance, related to the keeping of livestock.

Phase I established a Work Group comprised of Camp Verde community members. The Work Group represented diverse perspectives, leading to dynamic discussions and innovative proposals to update the ordinance.

We are now in Phase II: Preliminary Outreach, where the Work Group and Town staff will partner to host a public Open House/Workshop and distribute a survey to seek feedback regarding the proposed changes.

Please note: if you do not have a Google/Gmail account, or do not wish to log in to your Google/Gmail account for this survey, you are still able to complete it. However, you will not be able to save your progress, so be sure to complete your survey in one sitting. Thank you!

## **Resident Profile**

We would like to understand who is participating in this important conversation! Your responses will be kept anonymous, but answering the first two questions will help our team better understand who is most interested in Camp Verde's livestock ordinances.

Please provide us with your zip code in the text field below. \*

- An annual registry that allows for temporary (up to 30 days per year) increases in the number of livestock on a parcel of land.
- Increases in the number of livestock on a parcel of land between the hours of 6:00 am to 10:00 pm to provide opportunities for care, training, recreational activities, or other similar short-term activities.
- None
- Other (see next question to elaborate)

If you indicated "Other" in the question above, please explain. If not, feel free to write "N/A". \*

We don't need permission to use as our property as we deem appropriate. If we're following the rules, leave us alone. This is similar to gun control in that those who break the law already are not going to register. So who does this really affect? Those who already follow the law. Stupid waste of resources, time, and our freedom. Enforce what already exists instead of bowing to newcomers with no common sense or understanding of rural life.

Continue with the point system so there's something to hold people accountable to. Incorporate a strike system (perhaps 2 unresolved strikes and you're in trouble) where unresolved issues are monitored, cited if necessary and handled through the court. The solution is not to inflict more infringement and control of our rights, rather to protect the rights already granted.

---

Please check all livestock nuisances you're concerned about. \*

- Noises
- Odors
- Lighting
- Animal health
- Runoff of animal waste
- Manure management
- Proximity of livestock pens to neighboring parcel boundaries

- Other: .....

Please rank your top three nuisance concerns, with one being your greatest concern. If you responded "None" to the previous question, please respond "N/A" to this question. \*

In any scenario there will always be someone who breaks the rules. Punish them accordingly rather than infringing on the rights of the masses who already comply. Bow down to the complainers and we may as well stay rolled over and cowering.

### Final Comments & Future Outreach

We understand that there may still be some lingering questions or feedback that the survey did not cover but are still important for the Work Group and Town of Camp Verde to know.

Thank you for participating in our survey! We are looking forward to learning more from our residents to provide the best guidance for the keeping of livestock in Camp Verde.

Please list any remaining questions or feedback that you would like the team to know.

Please stay the course and do not permit the minority to become the majority. Our town is growing, that's ok. Please maintain what we've always stood for though. For over 150 years this community has remained steadfast in its agricultural roots. For crying out loud, founded as Fort Verde, a cavalry base WITH HORSES AND ALL MEANS OF LIVESTOCK...let us not forget our roots or forsake what we know to be an honest and admirable lifestyle. Thank you for remaining true to what we hold dear.

- Other (see next question to elaborate)

If you indicated "Other" in the question above, please explain. If not, feel free to write "N/A". \*

Permits are just a way for the Community Development Department to give special privileges to their friends and ignore other property owners right to the enjoyment of their property. This effectively leads to spot zoning, diminution of neighboring property values, which will lead to compensation law suites filed against the Town. This compensation will have to be paid by Camp Verde tax payers.

Please check all livestock nuisances you're concerned about. \*

- Noises
- Odors
- Lighting
- Animal health
- Runoff of animal waste
- Manure management
- Proximity of livestock pens to neighboring parcel boundaries
- Flies, vermin, insects, and other pests
- None; I am not concerned with nuisances related to livestock
- Other: .....

Please rank your top three nuisance concerns, with one being your greatest concern. If you responded "None" to the previous question, please respond "N/A" to this question. \*

1 - Odors; 2 - Proximity; 3 - Flies .....

### Final Comments & Future Outreach

We understand that there may still be some lingering questions or feedback that the survey did not cover but are still important for the Work Group and Town of Camp Verde to know.

If you would like to be contacted about future discussions regarding the zoning ordinance update, please contact the Camp Verde Community Development office at (928) 554-0050 or send an e-mail to [animalordinance@campverde.az.gov](mailto:animalordinance@campverde.az.gov). More information will be posted at this link:

<https://www.campverde.az.gov/departments/community-development/planning-zoning>.

Thank you for participating in our survey! We are looking forward to learning more from our residents to provide the best guidance for the keeping of livestock in Camp Verde.

Please list any remaining questions or feedback that you would like the team to know.

Why? Not a single presentation at the gym answered why this was being jammed down our throats. Creating a workgroup, stacking it with those that have the same agenda as some individuals in the Community Development Department does not add any more legitimacy to these changes than this patently unscientific survey. What benefit does it bring the Town to have animal codes less restrictive than Yavapai County. Who is to gaining from this? Most of us living in the town assign a value to living in a town as opposed to living in the county, It's one of the reasons we chose town living over county living. The fatal flaw in these changes is that they are less restive than the County, they attempt to diminish the rights of current property owners in the Town of Camp Verde. As a result these proposed changes will reduce the value of perhaps thousands of properties in town. Every property owner bordering a 2 acre parcel will be due compensation by the Town as a result of this land use change. The cost of placating the small but vocal minority demanding these changes will be enormous. Will the economic impact of that risk be included with the Community Development Department's recommendation? The elected officials of our town, the commissioners they appoint, and the managers they hire all need to start focusing on what is best for the Town of Camp Verde as opposed to how to dish out special favors and privileges for their friends and family.

# Camp Verde Zoning Workshop: Livestock Update

## **Project Background**

Camp Verde's Planning and Zoning Ordinance outlines what is and isn't allowed in our town - it has shaped Camp Verde as we know it. To support our Town's long-term vision as our community grows and changes, we started the process of rewriting our zoning ordinance, specifically regarding the number of livestock permitted in the Town.

While the Planning and Zoning Commission and Town Council are considering multiple updates to the Town's Zoning Ordinance, there was a strong desire to give specific focus to Section 305 of the Ordinance, related to the keeping of livestock.

Phase I established a Work Group comprised of Camp Verde community members. The Work Group represented diverse perspectives, leading to dynamic discussions and innovative proposals to update the ordinance.

We are now in Phase II: Preliminary Outreach, where the Work Group and Town staff will partner to host a public Open House/Workshop and distribute a survey to seek feedback regarding the proposed changes.

Please note: if you do not have a Google/Gmail account, or do not wish to log in to your Google/Gmail account for this survey, you are still able to complete it. However, you will not be able to save your progress, so be sure to complete your survey in one sitting. Thank you!

## **Resident Profile**

We would like to understand who is participating in this important conversation! Your responses will be kept anonymous, but answering the first two questions will help our team better understand who is most interested in Camp Verde's livestock ordinances.

Please provide us with your zip code in the text field below. \*

86322

With regard to your personal experience relating to livestock, please mark all that apply: \*

- Current livestock owner
- Past livestock owner
- Neighbor of a current livestock owner
- Have never owned livestock
- Live in a neighborhood where livestock ownership is common
- Have experienced nuisances relating to livestock in Camp Verde
- Other: .....

### Land Uses

While our Work Group has discussed numerous issues, we want to be sure that the proposed zoning ordinance incorporates the public's concerns. Please provide input on the following items:

Section 305 of the current ordinance allots 24 animal points for a minimum lot size of ½ acre to 1 acre. Each additional ¼ acre is allotted an additional 6 points. The Work Group's current recommendation is to retain this point count structure. Please mark one of the following: \*

- Point count should remain as recommended by the Work Group
- Point count should be decreased
- Point count should be increased by 50%
- Point count should be increased by 100%
- Point count should be increased by 200%
- There should be no restrictions on the number of livestock allowed

The Work Group is exploring some modifications to the animal point counts. The following is a list of scenarios being considered. Please mark all that you feel should be explored. \*

- Annual, renewable permits where a property owner who demonstrates excellence in compliance with nuisance management and livestock maintenance, can increase the number of livestock permitted on their property.
- An annual registry that allows for temporary (up to 30 days per year) increases in the number of livestock on a parcel of land.
- Increases in the number of livestock on a parcel of land between the hours of 6:00 am to 10:00 pm to provide opportunities for care, training, recreational activities, or other similar short-term activities.
- None
- Other (see next question to elaborate)

If you indicated "Other" in the question above, please explain. If not, feel free to write "N/A". \*

N/a

---

Please check all livestock nuisances you're concerned about. \*

- Noises
- Odors
- Lighting
- Animal health
- Runoff of animal waste
- Manure management
- Proximity of livestock pens to neighboring parcel boundaries
- Flies, vermin, insects, and other pests
- None; I am not concerned with nuisances related to livestock
- Other: .....

Please rank your top three nuisance concerns, with one being your greatest concern. If you responded "None" to the previous question, please respond "N/A" to this question. \*

1. Manure management, 2. runoff of animal waste, 3. proximity of livestock pens to neighboring parcels. ....

### Final Comments & Future Outreach

Thank you for participating in our survey! We are looking forward to learning more from our residents to provide the best guidance for the keeping of livestock in Camp Verde.

Please list any remaining questions or feedback that you would like the team to know.

I applaud the attempts of the group to add teeth for some Enforcement of issues, as this is a huge problem already. However, I fear many of the changes being considered create a further nightmare for Enforcement, which is already sorely lacking in Camp Verde.

Camp Verde had been a rural town since it was founded. The people who are from Verde Valley. Who grew up there want it to stay the same that's why we chose to live there. The people who are moving in are now trying to change the way things always have been and should be. If they didn't like the town the way it was why did they decide to move here in the first place? Please take this into consideration when making your decision.

# Camp Verde Zoning Workshop: Livestock Update

## **Project Background**

Camp Verde's Planning and Zoning Ordinance outlines what is and isn't allowed in our town - it has shaped Camp Verde as we know it. To support our Town's long-term vision as our community grows and changes, we started the process of rewriting our zoning ordinance, specifically regarding the number of livestock permitted in the Town.

While the Planning and Zoning Commission and Town Council are considering multiple updates to the Town's Zoning Ordinance, there was a strong desire to give specific focus to Section 305 of the Ordinance, related to the keeping of livestock.

Phase I established a Work Group comprised of Camp Verde community members. The Work Group represented diverse perspectives, leading to dynamic discussions and innovative proposals to update the ordinance.

We are now in Phase II: Preliminary Outreach, where the Work Group and Town staff will partner to host a public Open House/Workshop and distribute a survey to seek feedback regarding the proposed changes.

Please note: if you do not have a Google/Gmail account, or do not wish to log in to your Google/Gmail account for this survey, you are still able to complete it. However, you will not be able to save your progress, so be sure to complete your survey in one sitting. Thank you!

## **Resident Profile**

We would like to understand who is participating in this important conversation! Your responses will be kept anonymous, but answering the first two questions will help our team better understand who is most interested in Camp Verde's livestock ordinances.

Please provide us with your zip code in the text field below. \*

86322

With regard to your personal experience relating to livestock, please mark all that apply: \*

- Current livestock owner
- Past livestock owner
- Neighbor of a current livestock owner
- Have never owned livestock
- Live in a neighborhood where livestock ownership is common
- Have experienced nuisances relating to livestock in Camp Verde
- Other: .....

## Land Uses

While our Work Group has discussed numerous issues, we want to be sure that the proposed zoning ordinance incorporates the public's concerns. Please provide input on the following items:

Section 305 of the current ordinance allots 24 animal points for a minimum lot size of ½ acre to 1 acre. Each additional ¼ acre is allotted an additional 6 points. The Work Group's current recommendation is to retain this point count structure. Please mark one of the following: \*

- Point count should remain as recommended by the Work Group
- Point count should be decreased
- Point count should be increased by 50%
- Point count should be increased by 100%
- Point count should be increased by 200%
- There should be no restrictions on the number of livestock allowed

The Work Group is exploring some modifications to the animal point counts. The following is a list of scenarios being considered. Please mark all that you feel should be explored. \*

- Annual, renewable permits where a property owner who demonstrates excellence in compliance with nuisance management and livestock maintenance, can increase the number of livestock permitted on their property.
- An annual registry that allows for temporary (up to 30 days per year) increases in the number of livestock on a parcel of land.
- Increases in the number of livestock on a parcel of land between the hours of 6:00 am to 10:00 pm to provide opportunities for care, training, recreational activities, or other similar short-term activities.
- None
- Other (see next question to elaborate)

If you indicated "Other" in the question above, please explain. If not, feel free to write "N/A". \*

Remove 30 day limit annually on guest animals. Keep 10 day limit to prevent abuse of overnight guest animals.

---

Please check all livestock nuisances you're concerned about. \*

- Noises
- Odors
- Lighting
- Animal health
- Runoff of animal waste
- Manure management
- Proximity of livestock pens to neighboring parcel boundaries
- Flies, vermin, insects, and other pests
- None; I am not concerned with nuisances related to livestock
- Other: .....

Please rank your top three nuisance concerns, with one being your greatest concern. If you responded "None" to the previous question, please respond "N/A" to this question. \*

n/a .....

### Final Comments & Future Outreach

We understand that there may still be some lingering questions or feedback that the survey did not cover but are still important for the Work Group and Town of Camp Verde to know.

If you would like to be contacted about future discussions regarding the zoning ordinance update, please contact the Camp Verde Community Development office at (928) 554-0050 or send an e-mail to [animalordinance@campverde.az.gov](mailto:animalordinance@campverde.az.gov). More information will be posted at this link:

<https://www.campverde.az.gov/departments/community-development/planning-zoning>.

Thank you for participating in our survey! We are looking forward to learning more from our residents to provide the best guidance for the keeping of livestock in Camp Verde.

Please list any remaining questions or feedback that you would like the team to know.

Thank you to this group for your work

### Final Comments & Future Outreach

We understand that there may still be some lingering questions or feedback that the survey did not cover but are still important for the Work Group and Town of Camp Verde to know.

If you would like to be contacted about future discussions regarding the zoning ordinance update, please contact the Camp Verde Community Development office at (928) 554-0050 or send an e-mail to [animalordinance@campverde.az.gov](mailto:animalordinance@campverde.az.gov). More information will be posted at this link:

<https://www.campverde.az.gov/departments/community-development/planning-zoning>.

Thank you for participating in our survey! We are looking forward to learning more from our residents to provide the best guidance for the keeping of livestock in Camp Verde.

Please list any remaining questions or feedback that you would like the team to know.

# Camp Verde Zoning Workshop: Livestock Update

## **Project Background**

Camp Verde's Planning and Zoning Ordinance outlines what is and isn't allowed in our town - it has shaped Camp Verde as we know it. To support our Town's long-term vision as our community grows and changes, we started the process of rewriting our zoning ordinance, specifically regarding the number of livestock permitted in the Town.

While the Planning and Zoning Commission and Town Council are considering multiple updates to the Town's Zoning Ordinance, there was a strong desire to give specific focus to Section 305 of the Ordinance, related to the keeping of livestock.

Phase I established a Work Group comprised of Camp Verde community members. The Work Group represented diverse perspectives, leading to dynamic discussions and innovative proposals to update the ordinance.

We are now in Phase II: Preliminary Outreach, where the Work Group and Town staff will partner to host a public Open House/Workshop and distribute a survey to seek feedback regarding the proposed changes.

Please note: if you do not have a Google/Gmail account, or do not wish to log in to your Google/Gmail account for this survey, you are still able to complete it. However, you will not be able to save your progress, so be sure to complete your survey in one sitting. Thank you!

## **Resident Profile**

We would like to understand who is participating in this important conversation! Your responses will be kept anonymous, but answering the first two questions will help our team better understand who is most interested in Camp Verde's livestock ordinances.

Please provide us with your zip code in the text field below. \*

86322

With regard to your personal experience relating to livestock, please mark all that apply: \*

- Current livestock owner
- Past livestock owner
- Neighbor of a current livestock owner
- Have never owned livestock
- Live in a neighborhood where livestock ownership is common
- Have experienced nuisances relating to livestock in Camp Verde
- Other: .....

## Land Uses

While our Work Group has discussed numerous issues, we want to be sure that the proposed zoning ordinance incorporates the public's concerns. Please provide input on the following items:

Section 305 of the current ordinance allots 24 animal points for a minimum lot size of ½ acre to 1 acre. Each additional ¼ acre is allotted an additional 6 points. The Work Group's current recommendation is to retain this point count structure. Please mark one of the following: \*

- Point count should remain as recommended by the Work Group
- Point count should be decreased
- Point count should be increased by 50%
- Point count should be increased by 100%
- Point count should be increased by 200%
- There should be no restrictions on the number of livestock allowed

The Work Group is exploring some modifications to the animal point counts. The following is a list of scenarios being considered. Please mark all that you feel should be explored. \*

- Annual, renewable permits where a property owner who demonstrates excellence in compliance with nuisance management and livestock maintenance, can increase the number of livestock permitted on their property.
- An annual registry that allows for temporary (up to 30 days per year) increases in the number of livestock on a parcel of land.
- Increases in the number of livestock on a parcel of land between the hours of 6:00 am to 10:00 pm to provide opportunities for care, training, recreational activities, or other similar short-term activities.
- None
- Other (see next question to elaborate)

If you indicated "Other" in the question above, please explain. If not, feel free to write "N/A". \*

NA

---

Please check all livestock nuisances you're concerned about. \*

- Noises
- Odors
- Lighting
- Animal health
- Runoff of animal waste
- Manure management
- Proximity of livestock pens to neighboring parcel boundaries
- Flies, vermin, insects, and other pests
- None; I am not concerned with nuisances related to livestock
- Other: .....

Please rank your top three nuisance concerns, with one being your greatest concern. If you responded "None" to the previous question, please respond "N/A" to this question. \*

NA .....

# Camp Verde Zoning Workshop: Livestock Update

## Project Background

Camp Verde's Planning and Zoning Ordinance outlines what is and isn't allowed in our town - it has shaped Camp Verde as we know it. To support our Town's long-term vision as our community grows and changes, we started the process of rewriting our zoning ordinance, specifically regarding the number of livestock permitted in the Town.

While the Planning and Zoning Commission and Town Council are considering multiple updates to the Town's Zoning Ordinance, there was a strong desire to give specific focus to Section 305 of the Ordinance, related to the keeping of livestock.

Phase I established a Work Group comprised of Camp Verde community members. The Work Group represented diverse perspectives, leading to dynamic discussions and innovative proposals to update the ordinance.

We are now in Phase II: Preliminary Outreach, where the Work Group and Town staff will partner to host a public Open House/Workshop and distribute a survey to seek feedback regarding the proposed changes.

Please note: if you do not have a Google/Gmail account, or do not wish to log in to your Google/Gmail account for this survey, you are still able to complete it. However, you will not be able to save your progress, so be sure to complete your survey in one sitting. Thank you!

\* Indicates required question

## **Resident Profile**

We would like to understand who is participating in this important conversation! Your responses will be kept anonymous, but answering the first two questions will help our team better understand who is most interested in Camp Verde's livestock ordinances.

1. Please provide us with your zip code in the text field below. \*

86322

2. With regard to your personal experience relating to livestock, please mark all that apply: \*

*Check all that apply.*

- Current livestock owner  
 Past livestock owner  
 Neighbor of a current livestock owner  
 Have never owned livestock  
 Live in a neighborhood where livestock ownership is common  
 Have experienced nuisances relating to livestock in Camp Verde  
 Other: \_\_\_\_\_

### Land Uses

While our Work Group has discussed numerous issues, we want to be sure that the proposed zoning ordinance incorporates the public's concerns. Please provide input on the following items:

3. Section 305 of the current ordinance allots 24 animal points for a minimum lot size \* of  $\frac{1}{2}$  acre to 1 acre. Each additional  $\frac{1}{4}$  acre is allotted an additional 6 points. The Work Group's current recommendation is to retain this point count structure. Please mark one of the following:

*Mark only one oval.*

- Point count should remain as recommended by the Work Group  
 Point count should be decreased  
 Point count should be increased by 50%  
 Point count should be increased by 100%  
 Point count should be increased by 200%  
 There should be no restrictions on the number of livestock allowed

- 4. The Work Group is exploring some modifications to the animal point counts. The following is a list of scenarios being considered. Please mark all that you feel should be explored. \*

*Check all that apply.*

- Annual, renewable permits where a property owner who demonstrates excellence in compliance with nuisance management and livestock maintenance, can increase the number of livestock permitted on their property.
- An annual registry that allows for temporary (up to 30 days per year) increases in the number of livestock on a parcel of land.
- Increases in the number of livestock on a parcel of land between the hours of 6:00 am to 10:00 pm to provide opportunities for care, training, recreational activities, or other similar short-term activities.
- None
- Other (see next question to elaborate)

- 5. If you indicated "Other" in the question above, please explain. If not, feel free to write "N/A". \*

---

---

---

---

---

6. Please check all livestock nuisances you're concerned about. \*

Check all that apply.

- Noises
- Odors
- Lighting
- Animal health
- Runoff of animal waste
- Manure management
- Proximity of livestock pens to neighboring parcel boundaries
- Flies, vermin, insects, and other pests
- None; I am not concerned with nuisances related to livestock

Other: *I am a livestock owner that is aware of works to mediate all above nuisances to the best of my ability. :)*

7. Please rank your top three nuisance concerns, with one being your greatest concern. If you responded "None" to the previous question, please respond "N/A" to this question. \*

*My neighbor has "reported" me for manure (improper disposal - putting on trees) & improper set backs for horse shelters, and ~~also~~ having 1 more horse than I am allowed (it was just for 1 aemite) 2 of the 3 were found to be non-issues by code enforcement. We need to lessen amount of Bogus complaints. :)*

**Final Comments & Future Outreach**

We understand that there may still be some lingering questions or feedback that the survey did not cover but are still important for the Work Group and Town of Camp Verde to know.

If you would like to be contacted about future discussions regarding the zoning ordinance update, please contact the Camp Verde Community Development office at (928) 554-0050 or send an e-mail to [animalordinance@campverde.az.gov](mailto:animalordinance@campverde.az.gov). More information will be posted at this link: <https://www.campverde.az.gov/departments/community-development/planning-zoning>.

Thank you for participating in our survey! We are looking forward to learning more from our residents to provide the best guidance for the keeping of livestock in Camp Verde.

8. Please list any remaining questions or feedback that you would like the team to know.

Noted previously. Please consider doing away w/ "anonymous" complaints. They foster false complaints. Someone who feels their complaint is valid should be accountable for it, & that way we can keep track of serial complainers & lessen draw on code enforcement resources.

Thank You! 😊

- None
- Other (see next question to elaborate)

X Apply a nuisance standard and simplify the entire process

- 5. If you indicated "Other" in the question above, please explain. If not, feel free to write "N/A". \*

---

---

---

---

---

6. Please check all livestock nuisances you're concerned about. \*

Check all that apply.

- Noises
- Odors
- Lighting
- Animal health
- Runoff of animal waste
- Manure management
- Proximity of livestock pens to neighboring parcel boundaries
- Flies, vermin, insects, and other pests
- None; I am not concerned with nuisances related to livestock

Other: Apply a Nuisance standard.

7. Please rank your top three nuisance concerns, with one being your greatest concern. If you responded "None" to the previous question, please respond "N/A" to this question. \*

Our Town has witnessed arbitrary and capricious enforcement of code provisions. A "Nuisance" standard would remedy this.

**Final Comments & Future Outreach**

We understand that there may still be some lingering questions or feedback that the survey did not cover but are still important for the Work Group and Town of Camp Verde to know.

5. If you indicated "Other" in the question above, please explain. If not, feel free to write "N/A". \*

Permits open Pandora's Box and lead to unintended consequences. They are difficult to enforce and result in complaints and contention. Why should a neighbor have to endure the problems of increased animal counts for a week or 30 days. Do they need to stay inside for that period of time when the enjoyment of their property is compromised? Our ordinances are to protect the residents not just some of the time!

6. Please check all livestock nuisances you're concerned about. \*

Check all that apply.

- Noises
- Odors
- Lighting
- Animal health
- Runoff of animal waste
- Manure management
- Proximity of livestock pens to neighboring parcel boundaries
- Flies, vermin, insects, and other pests
- None; I am not concerned with nuisances related to livestock
- Other: \_\_\_\_\_

7. Please rank your top three nuisance concerns, with one being your greatest concern. If you responded "None" to the previous question, please respond "N/A" to this question. \*

① Quality of life on residential property!  
 ✓ Maintaining rural life style does not require that our residential neighborhoods need to tolerate some property owners ignoring ordinances regarding animals.

② Property values      ③ Lack of enforcement

**Final Comments & Future Outreach**

We understand that there may still be some lingering questions or feedback that the survey did not cover but are still important for the Work Group and Town of Camp Verde to know.

Thank you for participating in our survey! We are looking forward to learning more from our residents to provide the best guidance for the keeping of livestock in Camp Verde.

8. Please list any remaining questions or feedback that you would like the team to know.

Pigs! I agree that 2 acres or more, but only 1 pig on a parcel.  
No breeding pairs! Litters are big!

Any parcel of only  $\frac{1}{2}$  acre should be limited to 12 points. A house, garage, and outbuildings take up at least half the area, there is little left for animals.

8. Please list any remaining questions or feedback that you would like the team to know.

Pigs - I was involved with the current animal ordinances as a member of P+Z and then on Council. Pigs were the biggest problem! Do not change the current ordinances concerning pigs. We don't need to go back to neighbors hating neighbors that created hatred & threats, what we <sup>have</sup> now has worked. Don't try to fix something that is not broken. To do so would be an injustice! absolutely no breeding in residential areas

### Land Uses

While our Work Group has discussed numerous issues, we want to be sure that the proposed zoning ordinance incorporates the public's concerns. Please provide input on the following items:

3. Section 305 of the current ordinance allots 24 animal points for a minimum lot size \* of  $\frac{1}{2}$  acre to 1 acre. Each additional  $\frac{1}{4}$  acre is allotted an additional 6 points. The Work Group's current recommendation is to retain this point count structure. Please mark one of the following:

*Mark only one oval.*

- Point count should remain as recommended by the Work Group
- Point count should be decreased
- Point count should be increased by 50%
- Point count should be increased by 100%
- Point count should be increased by 200%
- There should be no restrictions on the number of livestock allowed

- 4. The Work Group is exploring some modifications to the animal point counts. The following is a list of scenarios being considered. Please mark all that you feel should be explored. \*

Check all that apply.

- Annual, renewable permits where a property owner who demonstrates excellence in compliance with nuisance management and livestock maintenance, can increase the number of livestock permitted on their property.
- An annual registry that allows for temporary (up to 30 days per year) increases in the number of livestock on a parcel of land.
- Increases in the number of livestock on a parcel of land between the hours of 6:00 am to 10:00 pm to provide opportunities for care, training, recreational activities, or other similar short-term activities.
- None
- Other (see next question to elaborate)

- 5. If you indicated "Other" in the question above, please explain. If not, feel free to write "N/A". \*

PERMITS ARE A PROBLEM. ORDINANCES MUST PROTECT QUALITY OF LIFE FOR EVERYONE ALL THE TIME NOT JUST SOME OF THE TIME

6. Please check all livestock nuisances you're concerned about. \*

Check all that apply.

- Noises
- Odors
- Lighting
- Animal health
- Runoff of animal waste
- Manure management
- Proximity of livestock pens to neighboring parcel boundaries
- Flies, vermin, insects, and other pests
- None; I am not concerned with nuisances related to livestock
- Other: \_\_\_\_\_

7. Please rank your top three nuisance concerns, with one being your greatest concern. If you responded "None" to the previous question, please respond "N/A" to this question. \*

PROPERTY VALUES IMPACTED BY ALL OF THE ABOVE  
 AS IS QUALITY OF LIFE

**Final Comments & Future Outreach**

We understand that there may still be some lingering questions or feedback that the survey did not cover but are still important for the Work Group and Town of Camp Verde to know.

If you would like to be contacted about future discussions regarding the zoning ordinance update, please contact the Camp Verde Community Development office at (928) 554-0050 or send an e-mail to [animalordinance@campverde.az.gov](mailto:animalordinance@campverde.az.gov). More information will be posted at this link: <https://www.campverde.az.gov/departments/community-development/planning-zoning>.

Thank you for participating in our survey! We are looking forward to learning more from our residents to provide the best guidance for the keeping of livestock in Camp Verde.

8. Please list any remaining questions or feedback that you would like the team to know.

# Camp Verde Zoning Workshop: Livestock Update

## Project Background

Camp Verde's Planning and Zoning Ordinance outlines what is and isn't allowed in our town - it has shaped Camp Verde as we know it. To support our Town's long-term vision as our community grows and changes, we started the process of rewriting our zoning ordinance, specifically regarding the number of livestock permitted in the Town.

While the Planning and Zoning Commission and Town Council are considering multiple updates to the Town's Zoning Ordinance, there was a strong desire to give specific focus to Section 305 of the Ordinance, related to the keeping of livestock.

Phase I established a Work Group comprised of Camp Verde community members. The Work Group represented diverse perspectives, leading to dynamic discussions and innovative proposals to update the ordinance.

We are now in Phase II: Preliminary Outreach, where the Work Group and Town staff will partner to host a public Open House/Workshop and distribute a survey to seek feedback regarding the proposed changes.

Please note: if you do not have a Google/Gmail account, or do not wish to log in to your Google/Gmail account for this survey, you are still able to complete it. However, you will not be able to save your progress, so be sure to complete your survey in one sitting. Thank you!

## **Resident Profile**

We would like to understand who is participating in this important conversation! Your responses will be kept anonymous, but answering the first two questions will help our team better understand who is most interested in Camp Verde's livestock ordinances.

1. Please provide us with your zip code in the text field below. \*

86322

2. With regard to your personal experience relating to livestock, please mark all that apply: \*

*Check all that apply.*

- Current livestock owner
- Past livestock owner
- Neighbor of a current livestock owner
- Have never owned livestock
- Live in a neighborhood where livestock ownership is common
- Have experienced nuisances relating to livestock in Camp Verde
- Other: \_\_\_\_\_
