On a motion by Councilor Whatley, seconded by Councilor Gordon, the council voted to approve and accept the US Bank lease purchase financing in an amount not to exceed \$530,000.00 for the specified equipment, with Councilors Baker and German voting **nay**.

Town Manager Russ Martin, on behalf of Finance Director Mike Showers, advised the specific equipment included a sewer-vac truck and camera van for the Sewer District/Waste Water Treatment; also advising that this expenditure has been approved in the Fiscal 2016-17 Budget – 5 year lease purchase. Agenda Title (be exact): Discussion, consideration and approval of proposed drainage work at Verde Lakes Subdivision prior to Chip Seal Paving Project in late September. Work proposed will provide much needed drainage through the subdivision within rights-of-way and drainage easements. These drainage improvements take care of some of the drainage problems within Verde Lakes previously discussed with council. Amount of JOC quote from McDonald Bros. Construction, Inc. totals \$84,468.95.

Budget Code: Verde Lakes Drive 03-000-20-850100 **Amount Remaining:** \$20,000

Budget Code: Yavapai County IGA 06-410-46-432000 **Amount Remaining:** \$75,000

Comments: This project is funded via our annual IGA with Yavapai County Flood Control District, and the CIP for Verde Lakes Drive

Background Information: Troy Odell and Ron Long have historically watched storm events flow through the subdivision and have prioritized this drainage work as some of the most important drainage improvements to be done. While it does not accomplish all of the necessary work within Verde Lakes, it does accomplish a good percentage.

Attn: Troy Odell

Troy,

The original bid had 51% of the 18" CMP installed in asphalt roadways. This reduced scope has 74% of the 18" CMP located in asphalt replacement areas.

To correct for that additional expense of slurry, sawcut, removal, traffic control and AC replacement, I derived two unit prices that I used at time of bid for the two installation conditions.

18" CMP with ABC at 28.07/lf
18" CMP in Asphalt at 62.01/lf

Our proposal is only modified in unit price to compensate for the higher percentage of road installed CMP.

Please let us know if this correction is acceptable to the town.

Sincerely,

Background: The Congress of the United States has authorized the Recreational Trails Program (RTP) as a federal-aid assistance program to help states provide recreational trails for non-motorized recreations use. Arizona State Parks (Parks) is responsible for the administration of the Statewide RTP Programs within the State; setting up necessary rules and procedures. These adopted procedures established by Parks require the project sponsor to certify by resolution the approval of applications, signature authorization, the availability of local matching funds, and authorization to sign a Project Agreement with the Parks.

The grant application for Camp Verde has been approved for funding of \$78,248 with a required match from the Town of \$4,730 to design and construct a 1.67 mile 6' wide multi-use non-motorized trail and associated support structures and signs around the perimeter of the new Community Park as outlined in the Town of Camp Verde Community Park Master Plan adopted November 12, 2008. Public Works plans to expend \$25,332 in previously approved CIP funding and in-kind operational credit for construction of an access road into the park and parking lot as the Town's match. By associating additional funds over the required minimum the grant application received additional points.

Solution:

1) Adopt the proposed rules and regulations – this will allow construction of an identified and planned component of the new Community Park while crediting Town matching funds for improvements already identified and planned.

Other Impacts: Parks & Recreation Staff time will be required to oversee grant management as well as design and construction work on the Trail which will be required at such time as the trail is constructed, regardless of funding sources.

Conclusion: A timely adoption of the resolution will allow construction of an important component of the Community Park Master Plan while having no discernable additional impact on the budget.

Recommendation: Move to approve Resolution 2016-962 adopting approving the application for motorized and non-motorized program grant.

Background Information: The land for the Community Park off Route 260 was purchased in 2008. Work is now beginning on design of the infrastructure and staff has just been notified of the award of a State Park Grant for the construction of a non-motorized 1.65 mile perimeter trail. In order to better market and brand the community's vision for this facility, staff is proposing to rename the Park.

This fall, Staff proposes to advertise in the local newspaper, on our website, social media, schools, senior center, community groups, all Town facilities and other avenues to request written entries to include the proposed name, an explanation why they think the name should be used along with their name, address and telephone number. Written entries will be submitted to Parks and Recreation. Staff will compile the entries and solicit public input on choices. A final selection of choices will be brought to Council for their decision.

Comments:

Background Information: The Town of Camp Economic development Department was approached by a local resident earlier this year asking if we would be interested in having an intern. After receiving Ly Bui's resume we agreed her skills and abilities relative to Internet marketing, computer coding and social media would be helpful. We made no promise of a wage or a stipend as the position was not contemplated during this year's budget discussion. However, after working in the department over the last three weeks, we have realized that the work she was doing was of greater value that anticipated. As much as she was learning, we have learned a great deal from her and been the beneficiary of her skills. Harriet has taught Sebra how to manage our websites, build Facebook pages and is working with the department to develop Internet and social media marketing products. We have plans to use her photographic skills as well has her graphic design background over the next few week. Other departments including the Library and Public Works have requested for her assistance.

Recommended Action (Motion): Approve the transfer of \$4500 from contingency line to EDD Projects line item
