3. **Pledge of Allegiance**

Mayor led the Pledge.

4. **Presentation, discussion and possible directions to staff relative to the Draft 2016-17 Capital Improvement Plan.**

Finance Director Mike Showers addressed the Mayor and Council advising the intent of this Work Session is to:
1) Set basic priorities for capital improvements without considering costs, and have a consensus of what the priorities are to give direction to staff to prepare for the budget with options and firm costs for each project; and
2) Propose a 5-year suggested plan (priorities) to give direction to staff.

Mr. Showers advised that he has categorized the requested CIP projects: Major projects in excess of \$100,000 and projects that are (or will be) multi-year plans and Minor projects less than \$100,000.00 that can be completed in one year or less.

Councilor Jones-Murdock advised that she has been confronted by residents regarding road/street repair and maintenance, which seems to be of high priority and is of great concern to the residents, acknowledging the Public Works 7 year plan for road repair/maintenance is \$5 million, and funds are not available.

Councilor Baker agreed stating road maintenance is urgent.

Vice Mayor George inquired about funding of Mr. Showers, stating he believed there was \$250,000 in HURF funding and \$250,000 in the FY 2015-16 budget, realizing this is only ½ of what is needed per year, but perhaps we could at least go forward and make some progress with this project.

Mayor German, stating, "We need to eat the elephant one bite at a time" agreed.

Councilor Jones-Murdock stated concerns regarding safety issues and possible round-a-about plans on Hwy 260 near I-17.

Councilor Whatley inquired about Black Bridge improvements, which were of high priority three years ago and

no one is requesting Black Bridge improvements in the CIP plan.

Councilor Gordon advised we have no control over any improvements or changes on Hwy 260 - ADOT controls Hwy 260.

It was the consensus of the Council to direct the Town Manager to re-visit and investigate the priority level of improvements to Black Bridge and available outside funding (or matching funds grants).

The Mayor and Council participated in an exercise ranking and prioritizing CIP requests and needs, without considering costs or timing (FY2016-17 or in 5 year plan). It was the consensus that the result of the exercise resulted in the following priority list of MAJOR CIP projects:

1. Roads repair and maintenance program
