3. **Pledge of Allegiance**

Councilor Baker led the pledge.

Martin explained that the Mayor was absent due to an emergency and would meet with the Manager at a later time. He explained that the budget had been developed with the Finance Director and Manager. He advised that there were no major differences. He asked Council not to ask staff why certain items have not been brought to them before. He explained that this is the first draft and that changes would be made before the final draft.

Martin directed attention to the General Fund budget and noted that we are spending what we take in. He advised that Public Work's planned capital expenditures this year that has an impact on the overall budget. He said that there would be between 2 and 2 ½ million dollars left in unrestricted funds. He said there was a significant amount withdrawn this year to payoff long-time employees, so a drop is reflected in this year's budget. Martin advised that on any given day, there is about 5 million dollars in the bank and that Council had visited investment opportunities. He explained that the Town could stretch the funds to cover 5 years, as opposed to 3 years. He advised that the capital expenditures be visited during the CIP update, as opposed to funding them before the public process, though it is important for Council to understand the needs of the department. He advised that he feels more comfortable with the way the finances are managed.

4. **Discussion, consideration, and possible direction to staff relative to the Draft FY 2011/12 Tentative Budget. Discussion may include, in no particular order, and not limited to the following budget units. Note: Any items not addressed at this meeting may be carried over to a subsequent meeting.**

Public Works Director Ron Long reviewed the budget for the following departments and the CIP budget:

a. **Public Works**

- ✓ Parks & Recreation
  - Pool
  - Children's Recreational Programs
  - Adult Recreational Programs
  - Senior Recreational Programs
  - Community Programs

- c. Municipal Court
- d. Magistrate Special Revenue Fund

Library Director Gerry Laurito reviewed the budget for the following departments:

- e. Library
  - ✓ Camp Verde Community Library
  - ✓ Children's Library
  - ✓ Library Building Fund

Town Clerk Deborah Barber reviewed the budget for the following departments, as well as the budgets for CDBG and HOME:

- f. Mayor and Council
- g. Town Clerk

Finance Director Melissa Preston reviewed the budget for the following department:

- h. Finance Department

Town Manager Martin reviewed the budget for the following departments and explained that he felt that the CIP budget expenditures should not occur before the public participation process:

- i. Legal Department
- j. Non-departmental
- k. Information Technology Services
- l. Town Manager

Marshal David R. Smith reviewed the budget for the following departments and the CIP budget:

- m. Marshal's Department
- n. Animal Control

The following departmental budgets were reviewed:

- o. Human Resources (Russ Martin)
- p. CIP Fund (Russ Martin, David R. Smith, Ron Long)
- q. Parks Fund (Ron Long)
- r. Yavapai-Apache Gaming Compact Fund **This item was not addressed.**
- s. Non-Federal Grants Fund **This item was not addressed.**
- t. Federal Grants **This item was not addressed.**
- u. CDBG Grants Fund
- v. 9-1-1 Fund (Marshal Smith)
- w. Housing Grant Fund (Deborah Barber)
- x. Donations Fund **This item was not addressed.**
- y. Debt Service Fund (Russ Martin)
- z. Contingency Fund (Russ Martin)

Martin summarized that staff costs were reduced in excess of \$200,000. He advised that he was considering closing the admin offices in the Public Works/Finance/Parks building so that their work would not be interrupted. He stated that his plan was to shift this public contact to the Clerk's Office. He further advised that he planned to relocate the Parks & Rec Supervisor would move to the former HR office from 12:00 to 6:00, thus eliminating interruptions for the Public Works Assistant. Martin explained that with the current financial situation that the Town cannot operationally keep the doors open, noting that this move will place an additional burden on the Clerk's Office. He said that it would be his goal to educate the public so that they understood the repercussions when they voted against a sales tax increase. He advised there is sufficient coverage in the Admin Offices with Carol Brown and Darby Martin added to the mix. He affirmed that the Clerk's Office and backup staff would not be doing the work for Parks & Recreation, but rather directing customers and advising of the hours.

Councilor-elect George noted that the town once had 70 employees and that due to the economy; there are now fewer employees who have taken on additional work. He advised that he noticed that the employees have stepped up. He said that he would like to propose a 3% COLA, with 2% now and another 1% later in the budget year. He said that he believed the Town could \$55,000, noting that the economists say that the economy is turning around and that the Town's sales tax had increased last month. Council members generally agreed with George. Martin agreed that the remaining employees deserved much more; however, he did not believe the Town was in a financial position to do that right now. He said that if we were going to put more money in, it would probably be better to replace staff, which would alleviate some of the stress on the over-burdened staff. Martin explained that staff is so thinned, that if the Town lost one more person, services would suffer greatly.

He closed with advising that he is working with former employee Matt Morris on an informational pamphlet for the public that will explain many of these issues.

5. **Review of the FY 2011/12 proposed fees for Town Services**

Council did not discuss this item.

Re: 2011-2012 Budget

---

Attached you will find the second draft of the 2011-2012 budget. In addition to debugging some of the spreadsheet formulas affecting the retirement and workman's comp figures, several other updates have been made.

- Retirement contributions will be 10.1% effective July 1, 2011. It was anticipated that the rate would be 10.75%. The difference has been passed on to the employee rather than the employer.
- The Finance Department's salary has been adjusted to include Lynda Moore at .47 FTE. The remainder of her time is broken up between the pool, adult and children's recreation, and community programs.
- Information on Cottonwood pool fees was requested at the budget session on May 6, 2011. Lynda has provided the following detail for your reference:
  - Outdoor Pool: Children/Seniors: \$1.50, Adults: \$2.50
  - New recreation center: \$3.00 Children/Seniors, Adults \$5.00 (this includes use of the other amenities in the center as well)
- The Mayor's and Council's training budget was adjusted by \$500 to accommodate all council members' attendance at the LACT annual conference in August/September 2011.
- State required schedules will be included in the final version of the document to be later this month. More closely estimated year-end data may be available at that point.
- New accounts have been established where appropriate, and as a result of the new chart of accounts requirement for the Tyler Technology financial software implementation, all of the account strings have changed. I am working on having those integrated into the document as quickly as possible.

- Fonts have been adjusted to be as consistent as possible. However, some departments have more lines items than others, and in order to fit everything onto one or two pages, there are some pages that vary in font size. The type is the same; only the size is different. I hope to use other software next year so that these formatting issues go away. My eyes need larger print as I age, so I am cognizant of readability issues for everyone.
- The Murdock Road Water Extension Project needs to be completed, and will cost \$43,300 (CIP Fund). The Town's Engineer is requesting funding for the project for this fiscal year.
- \$5,400 has been added as the Town may have to pay taxes for six months on the Streets property purchased. We are working with the county as we believe we are exempt, however, we should budget for the possibility.
- Tabs and page numbers have been added for easy reference. The department spreadsheets are sorted according to the organizational chart (representing a respective department head for each section), and should prove easier to reference as questions arise.

No decisions have been made on the following items, and I ask that you consider them as part of our next discussion. Your input will be needed so that I know what should or should not be included in this year's budget:

- The Library has requested \$3,000 to lease a copier. This includes maintenance costs. There is a Town effort to lease more efficient, less costly equipment, and the Library requests to be included in the initiative.
- The Library has also requested \$25,650 for a materials security and self-checkout system. Comparative cost quotations and further details are attached to this memo.
- The Black Bridge Improvement Project is broken into design and construction lines. ADOT will fund \$795,000 and the Town's Contribution is requested at \$48,504 to complete the project. The Town's Engineer is requesting funding for this fiscal year to take advantage of the grant.

Please review the attached documents as they provide project detail on the above items in question.

Please contact me if you have questions. I am happy to speak with you at your convenience.

**RE: Library CIP Project Proposal for 2011 / 2012**

In response to your request for a capital improvement project for the library, I propose adding RFID (radio frequency identification) technology to the library. RFID technology will allow patrons to check out their own library materials quickly and efficiently. Computer based stations will read a patron's library card and preprogramed tags on the library materials to check materials out to that patron. The technology can check out small stacks of library materials to a patron which will get them on their way quicker. It will improve the process of checking library materials in. In a complete "deluxe" system incoming library materials will be placed on a conveyer belt where it will pass through an RFID tag reader. The item will be deposited to the appropriate bin for transit to another library or to be placed on the shelf. We will not be purchasing this part of the system for space and economic reasons. It will improve security for the collection. According to the statistical package that came with our new automated library system we lost 229 books this past year valued at \$3,943.45. The process of taking inventory will be an easier one after this technology is implemented. These labor saving benefits will allow our staff and volunteers to provide more and better library services. The financial benefits of this project come by improving the efficiency of the existing staff and volunteers, thus giving them the time to do other things. In the past year we have been successful in expanding the amount of library programming we offer to the people of Camp Verde. As RFID becomes fully implemented, we will be able to expand the amount of programming we do and improve the quality of that programming. This may also give us the ability to expand our hours sooner because of increased efficiencies. I have received a quote from Techlogic (the company that is providing RFID technology to the other libraries in our network) for \$25, 650.00. I also figured it would take 10 additional staff hours per week for the next year to attach RFID tags to all of our items.

Sincerely,

Gerry Laurito, Library Director

Russ & Mel,

I received a quote for our RFID project proposed as the library's CIP Project for fiscal 2011/12 from Tech Logic Corp. of White Bear Lake MN. Tech Logic Corp is the sole provider of these products for the Yavapai Library Network. In addition to this we would need 10 additional staff hours per week for Alice Gottschalk \$20 per hour or \$10,500 per year (estimate) to attach RFID tags to every item in our collection.

Russ,  
As you know the Town has a Bridge Rehabilitation Grant through ADOT for improvements to Black Bridge. The Plan is to replace the bearing pads and expansion joints on Black Bridge in FY 13. What I found out from NACOG today is that I need to get that into our FY 12 budget so that I can get the IGA and the Funding allocated with ADOT. The grant funding cycle for FY 12 starts October 1, 2011 so that's when I need to be putting together the IGA and applying for allocation of the funding with ADOT to be ready to start construction in FY 13. We would however complete the design work in FY 12 so that we are ready to start next summer. I would anticipate spending approximately \$120,000 on design work in FY 12 but we need the entire funding in the CIP budget.

So what I am saying is that we need to put a line in the CIP fund this year for the amount of the grant plus our match to show ADOT we are serious and to get this ball rolling. The Grant funding will be \$795,000 with a Town match of \$48,054 (5.7%) for a total of \$843,054 to replace the bearing pads and expansion joints in Black Bridge.

We succeed only when we meet or exceed the expectations of our citizens. We have a passion for excellence and endeavor to set and deliver the highest standards of service, value, integrity, and fairness. We celebrate the diversity and power of our democracy through its people, ideas, and cultures. We feel a sense of responsibility to lead by examples of creativity, enthusiasm, and loyalty in our community in which we are proud to serve.

### Department Duties/Description

The Clerk's function is very much entwined with the basic tenets of democracy. Some key attributes of these tenets include balance of power/separation of powers; open access to information; open decision-making; fair elections; accountability for decision-making; and due process or rule of law. As administrators of the legislative process, a Clerk's purpose is to ensure that these basic principles are upheld throughout the process of governing. While other employees and elected officials must comply with democratic procedural requirements, the Clerk is accountable for the legislative procedures including maintaining open and fair processes for citizen access to information and the public record. The Clerk also helps to clarify procedures and processes in dialogues that continually occur between administration, the Council, and the public. As such, the Clerk is responsible for the following:

- \* The Clerk is the Election Official and performs those duties required by state statute
- \* Maintains a true and accurate record of all business transactions by the Council and all other records that pertains to the business of the Town or that Council directs.

**Departmental Duties/Description**

Non-Departmental Expenditures are those expenditures not allocated to any one Town department.

**Significant Expenditure Changes:**

- \* Fuel (7055) increased due to current and pending increases in fuel prices
- \* Electric (7065) increased due to increased expenditures to-date (3/21/11)
- \* Service Charges (7200) decreased.
- \* Liability Insurance (7220) decreased due to revisions in coverage (vis a vis Town Manager and Risk Manager), and other departments reporting sale of assets and Public Works/on-line auction.
- \* The lease for copiers (8020) in Administration will expire September 2011 and two units will be replaced by one. The \$6000 reduction in appropriation for copier expense in FY 11/12 (\$8,000 savings in FY 12/13 - 15/16) are a result of: aggressive pricing and technological advances allowing color and B/W features to be combined into one unit

**Fiscal Notes**

- \* Subscriptions/Memberships (7035) consists of \$1,613 for NACOG's portion of the Rural Transportation Liaison and Economic Development Administration for the regional planning grant, \$9,069 for the Town's annual dues to the League of Arizona Cities and Towns and other membership dues.
- \* All postage (7039) has been reinstated to non-departmental expenses reduced - currently have \$8,000 in postage machine.
- \* Utility expenditures are for those buildings/services that are not allocable to any one department.
- \* Camp Verde Visitors Center funds (7800) are monies transferred to the Camp Verde Chamber of Commerce for the operation of the Visitors Center.
- \* Fort Verde Historic State Park (FVHSP) IGA (7810) provides for the monies pledged in the Intergovernmental Agreement (IGA) with Arizona State Parks Board to provide funding to maintain the operations of Fort Verde State Park through June 30, 2011. The amount listed in the Manager's Recommendation column is for the period of July 1, 2011 through June 30, 2012. A new Intergovernmental Agreement will be required to support the funding of FVHSP for FY 11/12.
- \* Recycling (7840) funds decreased due to funds only being appropriated through the conclusion of the agreement (August 15, 2011). The combination of the Town's budget constraints and the increase in citizen's recycling eliminates the need for Town funding. \$800 is budgeted to finish out contract obligation.
- \* Emergency Services Agreement (7850) is an Intergovernmental Agreement with Yavapai County for coordination of emergency services in the event of a large emergency.
- \* Camp Verde Sanitary District IGA Ground Lease (7860) provides for the annual lease payment of the 15 acres leased by the Town from the Camp Verde Sanitary District in accordance with the Intergovernmental Agreement (IGA).
- \* Stewards of Public Lands (7910) are monies allocated to assist the Stewards of Public Lands volunteer group with their public land clean-up projects for needed supplies, dump fees, etc.

# Capital Improvement Funds

Capital Improvement Funds consists of the Capital Improvement Projects Fund and the Parks Fund. These funds are used for expenditures that are a structure, improvement, piece of equipment or other major asset having a useful life of at least two years.

The Capital Improvements Plan (CIP) is a critical piece in the Town's overall planning. It is the most important implementation tool of the General Plan. Development of the community's facilities and services is one of the primary functions of municipal government. Without a functional transportation system, water and wastewater facilities, public safety services, drainage systems, parks and recreation facilities, and other public facilities, a community cannot reach its potential as a quality place to live. While the Town does not currently provide all of these services to the entire community, it still must plan for them as development occurs.

The CIP is a multi-year plan that outlines current capital and infrastructure needs, future anticipated needs, current projects, and future costs to the community. It addresses both repair and replacement of existing infrastructure as well as the development of new facilities to accommodate future growth and/or improve services. The CIP links the Town's planning and budgeting functions. The CIP is to be used as a guide in decision making.

The process for the CIP's development is divided into six key phases, culminating in the presentation of a Capital Improvement Plan (CIP) to the Town Council for approval. The phases are:

- \* Development of CIP Evaluation Criteria. This process defines how CIP projects will be evaluated and prioritized.
- \* Public Participation. A resident survey is developed, distributed, and analyzed.
- \* Needs Assessment. Future needs are outlined utilizing the General Plan and taking growth patterns into consideration.
- \* Financial Analysis. Examining of the Town's recent revenues, expenditures, current debt, and bond capacity.
- \* Capital Projects Evaluation. CIP projects are evaluated and prioritized utilizing the developed Evaluation Criteria.
- \* Development of CIP Document. All of the preceding steps culminate in the development of the CIP Document which includes an implementation section, outlines how the CIP will be updated on an annual basis.

The planning period for a CIP is five years. The expenditures proposed for the first year of the program are incorporated into the annual budget as the capital budget.

One of the most important aspects of the CIP process is it is not a once a year effort, but an important ongoing part of the Town's overall management process. New information and evolving priorities require continual review.

It is important to note that the Town's most recent Capital Improvements Plan document expired at the end of the 2006-2007 fiscal year. The Town is researching options relative to updating the CIP and maintaining it on an annual basis as is required.

# Debt Policy

**Ordinance 2009-A366**  
**An Ordinance of the Mayor and Common Council**  
**Of the Town of Camp Verde,**  
**Yavapai County, Arizona**  
**Amending Town Code Chapter 3, Administration,**  
**Adding Section 3-4 Financial Policies**

## Debt Policy

The Town utilizes long-term debt to finance capital projects with long useful lives. Financing capital projects with debt provides for an "intergenerational equity", as the actual users of the capital asset pay for its cost over time, rather than one group of users paying in advance for the cost of the asset.

The purpose of this debt management policy is to provide for the preservation and eventual enhancement of the Town's bond ratings, the maintenance of adequate debt service reserves, compliance with debt instrument covenants and provisions and required disclosures to investors, underwriters, and rating agencies. These policy guidelines will also be used when evaluating the purpose, necessity, and condition under which debt will be issued. These policies are meant to supplement the legal framework of public debt laws provided by the Arizona Constitution, State Statutes, City Charter, federal tax laws, and the Town's current bond resolutions and covenants.

All projects funded with General Obligation Bonds or Revenue Bonds can only be undertaken after voter approval through a town-wide bond election.

### Section 3-4-2.1

1. The overall debt management policy of the Town is to ensure that financial resources of Town are adequate in any general economic situation to not preclude the Town's ability to pay its debt when due.
2. The Town will not use long-term debt to fund current operations or projects that can be financed from current revenues or resources. The Town will first attempt "pay as you go" capital financing.
3. The Town does not intend to issue commercial paper (CP) or bond anticipation notes (BANs) for periods longer than two years or for the term of a construction project. If CP or a BAN is issued for a capital project, it will be converted to a long-term bond or redeemed at its maturity.
4. The issuance of variable rate debt by the Town will be subject to the most careful review and will be issued only in a prudent and fiscally responsible manner.
5. Whenever the Town finds it necessary to issue revenue bonds, the following guidelines will be adhered to:
  - a. Revenue Bonds are defined as a bond on which the debt service is payable from the revenue generated from the operation of the project being financed or a category of facilities, from other non-tax sources of the Town, or from other designated taxes such as Highway User's Revenues, excise tax, or special fees or taxes. For any bonds or lease-purchase obligations in which the debt service is paid from revenue generated by the project, that debt service is deemed to be revenue bonds and are excluded from the calculation of the annual debt service limitation.
  - b. Revenue Bonds of the Town will be analyzed carefully by the Finance Department for fiscal soundness. The issuance of Revenue Bonds will be subject to the most careful review and must be secured by covenants sufficient to protect the bondholders and the name of the Town.
  - c. Revenue Bonds should be structured to provide level annual debt service over the life of the issue.
  - d. Debt Service Reserve Funds should be provided when required by rating agencies, bond insurers, or existing bond covenants.
  - e. Interest earnings on the reserve fund balances will be used to pay debt service on the bonds unless otherwise committed for other uses or purposes of the project.
  - f. The term of any revenue bond or lease obligation issue will not exceed the useful life of the capital project, facility or equipment for which the borrowing is intended.
  - g. The target for the term of Revenue Bonds will typically be between twenty and thirty years. The target for the "average weighted maturities" for Revenue Bonds of the Town (except for those issued through the Arizona Water Infrastructure Finance Authority) will be twelve and one half (12 1/2) years.
6. Improvement District (ID) and Community Facility District (CFD) Bonds shall be issued only when the formation of the district demonstrates a clear and significant purpose for the Town. It is intended that Improvement District and Community Facility

District Bonds will be primarily issued for neighborhoods and business districts desiring improvements to their property such as roads, water lines, sewer lines, street lights, and drainage. The District must provide a specific benefit to the property owner(s). The Town will review each project through active involvement of Town staff and/or selected consultants to prepare projections, review pro-forma information and business plans, perform engineering studies, analyze minimum debt coverage and value to debt ratios, and other analyses necessary to consider the proposal against specific criteria. Both ID and CFD Bonds will be utilized only when it is expected that they will be outstanding for their full term.

7. Refunding Bonds will be measured against a standard of the net present value debt service savings exceeding 5% of the debt service amount of the bonds being refunded, or if savings exceed \$750,000, or for the purpose of modifying restrictive covenants or to modify the existing debt structure to the benefit of the Town.
8. The Town shall comply with all U.S. Internal Revenue Service arbitrage rebate requirements for bonded indebtedness.
9. The Town shall comply with all requirements of Title 15.1 Arizona Revised Statutes and other legal requirements regarding the issuance of bonds and certificates of the Town or its debt issuing authority.
10. The Town will maintain regular contact with rating agencies through meetings and visits on and off-site. The Town will secure ratings on all bonds issued if economically feasible.

**Department Duties/Description**

The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest. The Town of Camp Verde currently has three (3) long-term debt obligations; the GADA loan for the Camp Verde Marshal's Office Facility, WIFA for the Sanitary District Funding Agreement, and Chicago Title for the soccer field at Butler Park.

**Greater Arizona Development Authority (GADA)**

The Town of Camp Verde obtained \$2,150,000 from the Greater Arizona Development Authority (GADA) on February 28, 2005 for the purpose of constructing a new Marshal's Department Facility. The funds received were part of an Excise Tax Revenue Bond series in which the Town agreed to use a portion of the Town Sales Taxes collected to make the required payments.

The first payment was made to US Bank on February 1, 2006. Payments are made bi-annually; one payment consists of principle and interest, the other bi-annual payment consists of only interest. The complete Schedule of Payments is listed on page 8-5. The Schedule of Payments for the next four years is as follows:

**Camp Verde Sanitary District IGA (WIFA)**

The Town of Camp Verde (Town) entered into an Intergovernmental Agreement (IGA) with the Camp Verde Sanitary District (District) on May 17, 2007 wherein the Town pledged \$135,000 per year to the District to be used in connection with the construction of a wastewater treatment plant. The District refinanced the loan originally secured through Koch Financial to secure savings through reduced interest rates. The loan was refinanced with the Water Infrastructure Finance Authority (WIFA).

The Town made the first payment to WIFA on December 22, 2009 and has continued to make the bi-annual payments as scheduled. The complete Loan Repayment Schedule is listed on page 8-6.

The Schedule of Lease Payments for the Water Infrastructure Finance Authority for the next four years are as follows:

**Chicago Title/NoteWorld (Butler Park)**

The Town of Camp Verde purchased the Butler Park Soccer Field on July 28, 1998 for the purchase price of \$42,000. Since that time, the Town has been making monthly payments to Chicago Title/NoteWorld who processes the payments to the mortgage holder.

The Town does not have an amortization schedule for the loan on the Butler Park Soccer Field, only a payment booklet. A calculation of the remaining payments shows that the property will be paid off in July 2014. The balance of the payments on a fiscal year basis is as follows:

Fiscal Year	Principal	Interest

## Department Duties/Description

The Donation Fund was established to accurately track donations given to the departments of the Town of Camp Verde that are designated for a specific purpose.

### Fiscal Notes

- \* In the 2011-2012 fiscal year, the Town Manager's Recommendation allows for the Departments to expend the prior year's fund balances along with the anticipated donation revenues in the 2011-2012 fiscal year to offset the decrease in their General Fund budgets.

# Non-Federal Grants

## Department Duties/Description

The Non-Federal Grants Fund tracks expenditures and revenues for grants not issued by the Federal Government. The current grant items are the School Resource Officer Grant, LTAF II Grant, Yavapai County Anti-Racketeering (RICO) Funds, and Governor's Office of Highway Safety. The Town of Camp Verde is not the direct grant recipient of the School Resource Officer Grant, but rather a sub-recipient as the funds are distributed to the Town of Camp Verde from the main grant recipient to reimburse the Town for actual expenditures of the Town's employee that participates in the grant.

### Department Staffing:

School Resource Officer (0.84) - Ten months of the year only, the remaining two months is budgeted in the General Fund Marshal's Department

### Fiscal Notes

- \* LTAF II Grant funding was eliminated as the funding from the Arizona Lottery has been permanently swept by the State of Arizona in 2010. Existing funds are used for the Transit Voucher Program. We have been advised an additional \$9,316.50 is available for 2011/2012. To fund this program for the 11/12 budget year will require a \$9,285 from Camp Verde (& in June the execution of an MOU) . Or an option to fund the required match of \$2,329.06 may fund the program 6- 7 months based on historical voucher use. A final option is to discontinue the program; any remaining funds would be returned to the State, Camp verde would not contribute funds and the Voucher program would end.
- \* School Resource Officer Grant provides funding through the Camp Verde Unified School District that covers the expenditures of one Deputy for the months of August through May (school year) to provide services to the School and have a presence at the School.
- \* Yavapai County Anti-Racketeering (RICO) is monies received from Yavapai County that may be used to fund items such as (list is not all inclusive):
  - \* Gang prevention programs
  - \* Substance abuse prevention programs
  - \* Substance abuse education programs
  - \* Witness protection
  - \* Investigation and prosecution of case
  - \* Payment of compensation to "injured persons"
  - \* Law enforcement equipment and operations
  - \* Many other uses as defined in the grant paperwork.

The proposed uses of the Yavapai County Anti-Racketeering (RICO) monies in the FY2011-2012 include the purchase of needed law enforcement equipment.

# Library Building Fund

## Department Duties/Description

The Library Building Fund is comprised of monies donated to the Town of Camp Verde with the express intention of being used to fund the construction of a new library facility. The majority of these monies were received as the result of the Camp Verde Public Library being named as the beneficiary of an estate. The Town received quarterly distributions from the trust that is currently managing the estate. In addition to the monies received from the estate, other donations received from the public with the intent of being used for the construction of a new library are also included in this fund.

### Fiscal Note

- \* The Council has approved an Operating Transfer from the General Fund to support the fundraising efforts for the building of a new library.
- \* The Library Building Fund was designated as a recipient of the funds received from the Yavapai-Apache Nation through the Proposition 200 Gaming Compact. The Council has allocated \$13,021 of the funds received from the Yavapai-Apache Nation towards the Library Building Fund.

**Department Duties/Description**

The 9-1-1 Fund was established to track the monies received from the State of Arizona that are designated to be used solely for the purpose of 9-1-1 dispatch related expenditures. In the past, these funds have been used for 9-1-1 training costs.

The 9-1-1 Funds distributed are calculated using a percentage allocation of the 1% of the 9-1-1 funds collected annually by the State 9-1-1 Office within the Arizona Department of Administration.

**Accomplishments for the Fiscal Year 2010/2011:**

1. No monies have been spent from the 9-1-1 Fund to date.

**Performance Objectives for Fiscal Year 2011/2012:**

1. To enhance 9-1-1 operations

**Significant Expenditure Changes:**

- \* 9-1-1 Expenditures (7010) is allocated to allow for 9-1-1 training or other related expenditures that may arise in the 2011-2012 fiscal year.

**Fiscal Notes:**

- \* Due to the State's 9-1-1 budget being drastically reduced, it is unknown at the time of preparing the budget as to whether or not the municipalities will receive distributions in the 2010-2011 fiscal year. The amounts budgeted are in anticipation of the Town receiving the funds as experienced in prior fiscal years.

### Our Mission

Public Works provides continuous development of well planned, cost effective, environmentally sensitive infrastructure of streets, storm water utilities, Town facilities, grounds & parks to promote public health, personal safety, transportation, economic growth and civic vitality. We work with Town Staff, Tribal, County, & State Governments and the public to improve the quality of life in Camp Verde.

### Department Duties/Description

The Department of Public Works has five divisions: Engineering, Streets, Storm Water, Facilities Maintenances/Janitorial, and Parks/Recreation. The Public Works Director is the Town Engineer and provides support to Community Development for Plan & Engineering Design Review, The Department also assists with or manages a wide variety of Town related Streets, Stormwater and infrastructure/construction projects. Director and staff work to maintain Town Standards, Codes and Ordinances both as a guide for current projects and future development. The Director is assisted by the Public Works Project Manager with a crew and administrative staff of five for Streets, Stormwater and Engineering maintenance, repair and construction needs. A Maintenance Foreman works with a crew of five to provide facilities & grounds maintenance and janitorial needs for all Town facilities, landscaping and grounds. The Parks/Recreation Supervisor facilitates community recreation and Town sponsored events.

#### Department Staffing:

Public Works Director/Engineer (0.50)

Special Projects Coordinator (0.10)

4. Continue to provide engineering support to Community Development
5. Complete Engineering Standards
6. All Staff to attend training and/or seminars that will introduce new technologies and sources of information

#### Significant Expenditure Changes:

- \* Training, Travel & Computer Software: although these were not fully utilized in FY 10/11, we have targeted specific needs for training and new software for Public Works Administration and expect to expend the amount requested in FY 11/12. Consulting Services: the amount requested is supported given the infrastructure needs of the Town and roll-over effects of planned projects. Legal Services: the increase is based on the projects and anticipated requests for service in FY 11/12. Main Street Surveys: Staff has determined that the \$23,000 budgeted in FY 10/11 will not be adequate to complete this project, so additional funds will be requested in FY 12/13.

#### Fiscal Notes

- \* Consulting Services: funds for a specialty engineering license/expertise, surveying services or environmental discipline as required for a project. Staff requests the addition and funding of the following account titles for the budget: Fuel, Oil and Lube (7055/ \$200) and Vehicle Maintenance (7050/ \$300). The Department has a vehicle that is used by the Director, and Administrative Staff for inspections, attend meetings and do Town business. The addition of these titles will better track the use of this vehicle and related expenses. Also, Advertising (7038/ \$235) is needed to track the required advertising for the procurement of goods or services.

## Our Mission

The mission of the Storm Water Management Division is to provide environmental protection, minimize the impacts to public and private property due to flooding from storm events and promote public health and safety through education and the implementation of storm water regulations, policies and engineering.

## Department Duties/Description

Storm Water Management is a division of the Public Works Department. It is the responsibility of Storm Water Management to ensure that public and private facilities within the Town's corporate boundary are compliant with all applicable floodplain and storm water regulations, policies and design criteria. Storm Water Management works closely with Yavapai County Flood Control District to establish and maintain consistent policies and criteria that ensure the uniform construction of all drainage infrastructure within the Town of Camp Verde.

### Department Staffing:

Public Works Director/Engineer (0.10)	Medium Equipment Operator 2 (0.04)
Public Works Project Manager (0.20)	Heavy Equipment Operator (vacant)
Streets Foreman (0.04)	Special Projects Coordinator (0.10)
Medium Equipment Operator 1 (0.04)	

### Accomplishments for the Fiscal Year 2009/2010:

1. Researched options to cut construction costs & completed re-design work for the Cliffs Parkway/Finnie Flats Road Drainage Project
2. Addition of Public Works Project Manager position who will devote a portion of his time to begin development of the Storm Water division of Public Works
3. Worked with Yavapai Co. Flood Control to detail the Cliffs/Finnie Flat Drainage project in order to request a roll-over of IGA funds and request additional funding the completion of this important drainage channel. Also, obtained Small Projects Funds from Yavapai County Flood Control for drainage related projects
4. Submitted the annual MS4 report to ADEQ and completed required street sweeping.
5. Continued support of the Stewards of Public Lands in clean-up events.
6. Completed minor drainage projects in Reddell Ranch, Fort River Caves & Pioneer Acres neighborhoods & smaller culvert projects at various locations in Town

### Performance Objectives for Fiscal Year 2010/2011:

1. Complete the Cliffs/Finnie Flat Drainage Channel; both design and construction
2. Identify, prioritize & plan projects that can be completed using the Small Projects funding from Yavapai County Flood
3. Work with Yavapai County Flood Control and FEMA to develop and establish flood plain records for new and existing structures.
4. Develop a master list of all Town owned storm water structures.
5. Develop a maintenance schedule for all Town owned storm water structures.

### Significant Expenditure Changes:

- \* Training: It is important that staff attend workshops, classes and seminars to inform staff of important changes and requirements. Stormwater training provides an important opportunity to network with State, County and Federal agencies to learn of grant or possible funding opportunities.

### Fiscal Notes

- \* Staff is requesting a rollover of \$296,530 from the Yavapai County Flood Control IGA for the construction of the Cliffs Parkway/Finnie Flat Road Drainage work. The Yavapai County Flood Control IGA rollover amount and requested new funding will total \$718,000
- \* In 1972, the Federal Clean Water Act was passed. As stewards of approximately 18.5 miles of the Verde River (listed as an impaired waterway) we can expect growing scrutiny from Federal and State agencies. The Public Works Project Manager will begin to outline basic responsibilities of the Stormwater Division. As the division is not sufficiently staffed, time and resources are utilized for planning a complete, functioning Storm Water Management division and minor projects.
- \* General Funds are critical to provide the necessary staffing and implementation of the Stormwater requirements. Consulting Services (7100) in the amount of \$1,400 is requested to provide engineering, hydrologic and other professional consulting services necessary to correct the Storm Water problems and maintain the infrastructure to meet regulatory requirements as well as the annual ADEQ report. Yavapai County Flood Control (7590 and 4320) are comprised of monies provided by Yavapai County for the Cliffs Parkway Drainage Channel. This amount does not contain sufficient funds to fully mitigate the storm water/drainage flows in the Cliffs Subdivision, Outpost Mall, and Town Homes. additional CIP funding is being requested.

### Our Mission

The mission of the Streets Division is to provide the highest quality public roads through the prudent use of resources, technology, innovations, teamwork and coordination with Town employees and public agencies. We recognize the importance of preserving the Town's major investment in streets infrastructure so that the maximum benefit is obtained. We will continue to educate management, elected officials and the public of the importance of their roads and the potential impact of decisions they make. impact of the decisions they make.

### Activities/Description

Streets is a division of Public Works, it is funded through the Highway Users Revenue Fund (HURF); the division receives no funding from the General Fund. With a crew of three, and support of the Public Works Project Manager, the division maintains over 110 miles of paved roads, and several miles of dirt roads. Each year the Crew performs crack-seal, chip-seal, patch and pavement projects, road inspections, signage and monitors the traffic signals. Annually, over 7,000 cubic yards of tree/brush trimmings are cleared and added to the never-ending roadside trash removed from the Right of Way. We process an average of 25 Road Cut Permits and 75 Culvert Permits each year that require at least one inspection each by a crew member. We are responsible for street sweeping, dead animal pick-up/removal and the Adopt-A-Road program. The crew does the majority of maintenance on the vehicles and equipment used by Streets Division.

### Department Staffing:

Public Works Director/Engineer (0.20)	Medium Equipment Operator (1.92)
Streets Foreman (0.96)	Streets Laborer (vacant)
Public Works Project Manager (0.80)	Public Works Administrative Assistant (0.45)
Heavy Equipment Operator (vacant)	

### Accomplishments for the Fiscal Year 2010/2011:

1. Completed over 60,000 lineal feet of Crack Seal preventative maintenance
2. Began updating signage to meet MUTCD retroreflectivity requirements
3. Hired the Public Works Project Manager

### Performance Objectives for Fiscal Year 2011/2012:

1. Complete clearing/cleaning the site and perimeter fencing at the Public Works/Streets Yard on Industrial Drive.
2. Plan and schedule for the Crack Seal, Chip Seal programs and Street Striping
3. Identify and participate in training in order to learn new techniques and keep current certifications
4. Plan and complete a chip seal overlay
5. Work with NACOG for the successful completion of the Hollamon street Sidewalk project
6. Maintain the Rights of Way and provide pick up from ADOPT A ROAD clean-ups

### Significant Expenditure Changes:

- \* Training: this will allow the Street Crew to upate certifications and attend training for new products/applications and safety
- \* Sewer: reflects the levy payable to CVSD for Industrial Drive
- \* Waste removal is increased to reflect anticipated clean-up at Industrial Dr
- \* With the purchase of Industrial Dr. the Town will replace lease payments with a 20-year loan for this appreciating asset
- \* Consulting Service is needed for any unexpected projects that require survey or engineering
- \* Planned maintenance to 4- 5 miles of roadway that has been delayed for years and now is critical
- \* Street Construction: sufficient to do one small project that will upgarde or provide a new section of road

### Fiscal Notes

- \* Seasonal Labor is included in the salary related calculations. Amounts included are 1,440 hours at \$12.00 per hour of rework such as mowing/trimming, flagging, and chip seal, and 240 hours at \$20.00 for blading work plus all applicable taxes and benefits.
- \* HURF Revenues and LTAF Revenues are restricted monies received from the State that can only be used for transportation related expenditures. The State provides annual estimates of the amounts that each municipality will receive during the fiscal year.  
 HURF Revenues are derived from gasoline tax and a number of additional transportation related fees. One-half of monies received are distributed based on the population, the other half are allocated based on "county of origin" of gasoline sales. 2011/2012 revenue reflects the anticipated reduced funding. We have planned reserves in the HURF Fund Balance to account for this reduction, and are requesting \$434,950 for the 11/12 operational budget
- \* Transportation Management Plan:  
 The Town of Camp Verde has over 110 miles of paved roadways, valued in excess of \$16,800,000. With proper maintenance and preservation work, this valuable asset has a life of 15 to 20 years. Every \$1.00 spent in the first 15 years of the service life of a paved road, saves the Town \$5.00 in future rehabilitation costs. This is based on today's costs; as fuel/oil costs increase, rehabilitation costs will increase, making maintenance even more critical. Any Transportation Maintenance Program will address each of the following:
  - \* Routine maintenance such as street sweeping, clearing roadside ditches/structures, maintenance of markings and signage, crack fill, and pothole patching.
  - \* Preventative maintenance is the most cost effective. It is one tenth the cost of reconstruction. Preventative maintenance includes fog seal, crack seal, chip seal, and hot mix overlay.
  - \* Rehabilitation is the structural enhancement that extends the service life of existing pavement by increasing the thickness to accommodate existing and projected traffic conditions.
  - \* Establishing a chip seal program wherein the Town would chip seal 7.5 miles of road each year on a 15 year rotation would cost approximately \$750,000 per year. This program would allow for the proper preventative maintenance for the Town's current paved roadways but will require a financial commitment from the General Fund

## Our Mission

The mission of the Camp Verde Parks & Recreation Department is to provide the best possible recreational facilities for its citizens. We are dedicated to maintaining and creating quality parks and outdoor recreational facilities.

## Department Duties/Description

- \* Maintain current parks and outdoor recreational facilities.
- \* Establishment of new park development.

### Accomplishments for the Fiscal Year 2010/2011:

1. The Parks Fund currently has a negative fund balance. This means that the Parks Fund has no cash with which to fund its operations. In light of this predicament, the Parks Fund was authorized to fund basic operations such as port-a-jons at the parks and the Operating Transfer Out to the Debt Service Fund for the payments on Butler Park Soccer Field.

### Performance Objectives for Fiscal Year 2011/2012:

1. Maintain port-a-jons at the parks.
2. Provide funding for the Butler Park Soccer Field payments to the Debt Service Fund.

### Significant Expenditure Changes:

### Fiscal Notes

- \* Due to the financial constraints that the Town is experiencing, no monies have been allocated to the Parks Fund in the 2011-2012 fiscal year.
- \* Local Park Improvements (5130) provides for port-a-jons at the parks and for 11/12 budget year improvements to the restrooms to include: lighting, hot water, and heater.
- \* Rezzonico Park (5160) provides for port-a-jons at Rezzonico Park.
- \* Interfund Loan Repayment (8801) will not be made in the 2010-2011 fiscal year due to monetary constraints.

### Refunding Agreement

- \* Staff is recommending discontinuing the allocation of \$200,000 to the Parks Fund for the FY 2011-2012. This allocation has been used to cover the Interfund Loan Agreement between the General Fund and the Parks Fund for the purchase of the Community Park land. Discontinuing the allocation will result in a longer pay back period for the Parks Fund to fulfill its obligation to the General Fund. The Amended Interfund Loan Agreement was adopted by Council on May 5, 2010.

## Department Duties/Description

The purpose of the Magistrate Special Revenue Fund is to help the Court finance and achieve some needs that might not be possible without them. They are placed in individual numbered account for tracking the funds. Each fund is authorized by State or local law.

Local (Municipal) Court Enhancement Funds are collected by the Court as per Ordinance No. 2001-A182 (3). It states that the funds shall be used exclusively to enhance the technological, operational and security capabilities of the Court.

Local Judicial Collections Enhancement Fund (JCEF) is collected by the Court as per ARS 12.113 for the purpose of improving, maintaining and enhancing the ability to collect and manage monies assessed or received by the Courts including restitution, child support, fines and civil penalties; and to improve court automation projects likely to improve case processing or the administration of justice.

Fill the Gap Fund is collected by the Court as per ARS 12-102.102 to allocate funds to counties for the purpose of planning and implementing collaborative projects that are designed to improve the processing of criminal cases.

Fill the Gap and JCEF funds must be requested through a "grant process" to the Supreme Court for approval of how the Court wishes to spend the funds. There are no match funds. Spending must meet the criteria of the legislative intent.

### Fiscal Notes:

Fill the Gap funds will be utilized to pay for annual audio/visual maintenance fees, monthly DSL fees, copier lease and computer equipment lease. Paying our copier lease and computer equipment lease from this fund is only temporary. This fund has an accrual balance but can not tolerate more than two years.

The Court Enhancement Fund is being utilized to pay for legal reseach, digital recordig maintenance, security maintenance, training, travel and interpreters.
